BIG DROP IN B. N. RAILWAY RETURNS

Revenue Figures Show Strength Of Strike

GIRI'S CHALLENGE TO AGENT

Says Will Prove Action Is Forced On Labour

(FROM OUR CORRESPONDENT.)

NEW DELHI, January 15.

The B. N. Railway is suffering heavily owing to the strike on its line judging from the statistics of railway earnings issued today.

Only Railway To Loose

This railway is the only one which has suffered loss during the last days of December when the railway earnings have shot up on all railways. The B. N. Railway earnings have for eleven days ended December 31, been Rs. 8,11,005 lower than the same period last year, the loss on passenger traffic being Rs. 2,25,000 and goods traffic Rs. 5,87,000.

If Strike Continues .....

This railway earned 35 lakhs less for the period from April to the end of December 1936, compared with the same period last year.

The strike has been only for a month and if it continues greater loss in earnings might result.

But Agent Is Adamant

Still the Agent does not favour setting up a machinery to settle the dispute through the machinery contemplated in the Trade Disputes Act.

Giri's Challenge

"I can prove before any impartial tribunal that the B. N. R. administration has forced the strike upon us and that explains the reason why the Agent is not agreeable to the appointment of a Conciliation Board.

The present strike will, if necessary, continue for six months or more and will not be called off till an honourable settlement is reached".

This announcement was made by Mr. V. V. Giri, M.L.A., and General Secretary of the All-India Railwaymen's Federation at a mass meeting of railway employees held here yesterday to celebrate the peaceful completion of the first month of the B. N. R. strike.

Continuing Mr. Giri said:

"I have received numerous representations from different Railway Unions to hold a general meeting of the Federation and if necessary to declare an all India strike. But I still pin my faith in negotiation and am willing to trust in the good sense of Sir Frank Noyce, Member-in-Charge of Labour and Industries. In case, however, all my attempts to settle this strike amicably fail and our Federation is driven to take the extreme step of declaring an all-India strike, the entire blame shall lie at the door of the B. N. R. Agent and the Government of India. I still hope against hope that the unfortunate contingency will not happen".—United Press.

How Agent Will Handle Situation

NEW DELHI, Jan. 15.

Although the Government of India have announced that a Board of Enquiry into the B. N. R. strike cannot be appointed, hopes are entertained that a way may be found to end the strike.

Mr. Jerrard, Agent of the B. N. Railway, had talks with members of the Government and the Chief Commissioner of Railways, yesterday, in the course of which he is reported to have indicated the extent to which he was prepared to treat his men generously. His plans are said to have had the approval of those in authority.

Mr. Jerrard arrives in Calcutta to-night and is expected to handle this situation firmly but sympathetically.—A.P.

STRIKERS STEADY AND PEACEFUL

KHARAGPUR, Jan. 15.

Mr. Ramalingam, Vice-President of the Labour Union, Kharagpur, wires to the "United Press":—

"The strikers are steady and peaceful. Intense anti-propaganda is carried on but firmly resisted by the strikers. More Station Masters, Assistant Station Masters, clerks and drivers have joined the strike."—United Press.

DISCIPLINARY ACTION AGAINST CONGRESS REBELS

CALCUTTA, Jan. 15

Pursuant to the authority and direction given to him by the President of the Congress, Mr. Sarat Chandra Bose, Acting President of the Bengal Provincial Congress Committee, has taken disciplinary action against three Congressmen, Mr. Kamini Kumar Dutt of Comilla, Mr. Dhiresh Chakravarty of Dacca who is Secretary of the Bengal Congress Nationalist Party and Mr. Nishith Kundu of Dinajpur, who are opposing Congress candidates in different constituencies after having signed the Congress Parliamentary pledge.

Their names have been struck off from the Elective Congress Committees of which they are members. They have also been suspended from primary Congress Committees.

Periods of their removal and suspension will be determined by the President of the Congress on the recommendation of the Executive Council of the Bengal Provincial Congress Committee before whom the matter will be placed as soon as possible.

It may be recalled that on January 7 these three persons were called upon by the Acting President of the B.P.C.C. to show cause why disciplinary action should not be taken against them for their conduct. But they did not respond uptil the time of the Acting President's taking action.—United Press.

Dr. Satyapal Takes Disciplinary Action

LAHORE, Jan. 15

Dr. Satyapal, President of the Punjab Provincial Congress Committee, has taken disciplinary action against Mr. Daulatram Khanna who is opposing Seth Sudarshan, an official Congress candidate, from the Jullundur-Ferozepore urban general constituency.

Mr. Daulatram Khanna has been suspended from the membership of the Congress until further orders.—United Press.

STUDENTS GO ON STRIKE

Move To Boycott Calcutta 'Varsity Foundation Day

CALCUTTA, Jan. 15.

"Boycott of the University Foundation Day Celebrations" was the slogan of a large number of students of the Vidya Sagar College, who took out a quarter-mile-long procession following a strike, as a mark of protest against the action taken by College authorities against two third-year boys. Strikers went from college to college and also to the University, shouting that slogan.

Enquiries made go to show that a section of students expressed their unwillingness to participate in the University Foundation Day celebrations, which takes place on January 30 next, as some of the items organised in connection with the celebrations—such as saluting "Union Jack" along with "University Flag"—appears to them to be uncalled for. This point of view was represented to the College authorities who, it is alleged, took offence and punished their (students') spokesmen as stated above.

Interesting developments are expected.—United Press.

New Fr. Ambassador For America

PARIS, Jan. 15.

M. Georges Bonnet, ex-Minister of Commerce and a Deputy, has been appointed Ambassador to Washington in succession to M. De Laboulaye. M. Bonnett will go to Washington early in February.

The appointment will last only six months as a deputy can only be sent on a special mission for that period. M. Bonnet will attempt to bring about a settlement of France's war debt to the United States while he is in Washington.—Reuter.

CONVENTION TO MEET IN DELHI

NEW DELHI, Jan. 15.

The "United Press' reliably understands that the Convention in pursuance of the Faizpur decision of the Congress will be held in Delhi in the third or last week of March

Arrangements will be made for about 5,000 visitors. About 1,000 invitations will be issued to people including A.I.C.C. and Congress members in the various legislatures Visitors' fee for the Convention will be Rs. 10 each.—United Press

MASANI'S PASSPORT IMPOUNDED

BOMBAY, Jan. 15.

The "United Press" reliably understands that the passport of Mr. M. R. Masani, Socialist leader of Bombay, has been impounded by an order of the Government of India, thereby making it impossible for him to leave India for Europe.

It is understood that Mr. Masani applied very recently for renewal of his passport as it would expire and was informed by the Passport Officer of the Bombay Government that it could not be renewed.

The "United Press" further learns that the Government of India have impounded the passport of Mr. Masani in consultation with His Majesty's Government in England.

It will be remembered that the passport was impounded in London early last year when Mr. Masani was there and as a result of the issue being raised in both the Houses of Parliament by the Labour Party leaders, the passport was given to him for only one more year which in the ordinary course would be valid for five years.—United Press.

"I Have Come As A Penitent Pilgrim"

Mahatma Addresses Mammoth Meeting At Nagercoil

NAGERCOIL, January 15.

Mahatma Gandhi and party arrived in Nagercoil yesterday evening in the course of their South Travancore tour. A very large audience gathered to listen to Gandhiji who was presented with addresses by the Nagercoil Municipality, the Harijan Sevak Sangh and other bodies.

Imbibe The Spirit

Gandhiji replying said he had come to Travancore this time as a pilgrim and that his mind was full of duties ahead, so that he could not think of anything else. If they would assimilate the spirit of the Temple Entry Proclamation they would obtain results which would astonish the whole of India. He regarded the Proclamation as a great attempt to rid Hinduism of the curse of untouchability and in issuing it the Maharaja and his advisers had laid the axe at the root of that curse.

After the function Mahatma Gandhi and party left for Cape Comorin where they will spend Friday and return to Trivandrum in the night.

"En route", to Nagercoil from Trivandrum, Mahatma Gandhi visited Venganoor, Balarampuram, Neyyatinkara, Tiruvattar and Padmanabhapuram and, there were functions at all these places in honour of Gandhiji. At Venganoor, the Pulayas headed by Iyyankali, an old Pulaya leader, presented addresses and there were addresses at other centres also.—A.P.

WELCOME ADDRESSES.

Dr. Vaithyanath Iyer on behalf of the Municipal Council read a welcome address which assured Gandhiji that the Council was doing its best to uplift Harijans.

The Hindi Prachar Sabha, the Nanjinad Sambar Sangham and the Hindi Prema Sabha also presented welcome addresses to Mahatmaji.

Replying to the addresses Mahatma Gandhi said:—

"You need not have presented me with any address on this occasion. I have ventured to come in your midst to share your rejoicing over the gracious proclamation the Maharaja has given you. I have come more as a penitent pilgrim than anything else"

MAHATMA TO VISIT CYCLONE-STRICKEN AREA

MADRAS: January 15.

On return from Travancore Gandhiji will visit the cyclone-stricken area in the Guntur district on January 23 and 24. In the evening of the 24th January he will address a public meeting at Bezwada and later leave for Wardha by the Grand Trunk Express.—United Press.

ANGLO-IRISH 'ENTENTE'

Hopes Sequel To Malcolm MacDonald-De Valera Conversations

LONDON, Jan. 16.

Mr. de Valera returned to Dublin this morning. He had no statement to make before leaving.

Reuter, however, understands that he was well pleased with the opportunity afforded to him to converse with Mr. Malcolm MacDonald. Yesterday's surprise talks centred round the present outstanding points, political and economic, between Free State and Britain. They continued for nearly five hours in an atmosphere of great cordiality and although they did not result in any formal decisions it is hoped that basis has been made for further conversations which may yield more concrete results.—Reuter.

ULSTER'S BOUNDARY MUST REMAIN INTACT

Craigavon On "United Ireland" Talks

LONDON January 15.

Simultaneously with the official statement denying that Messrs. De Valera and Malcolm MacDonald discussed a scheme for United Ireland, Viscount Craigavon in a speech at Belfast, said:

"Dual administration is the only way. Partition of Norway and Sweden occurred 32 years ago and operation is almost forgotten. Ulster and South-Ireland are halfway through that period and another 16 years will see both parts settled under their own administrations. Ulster's boundary must remain intact—that is the answer to all who have threatened and cajoled."—Reuter.

ITALY'S ASSURANCE TO NAVAL POWERS

LONDON: January 15.

Information has reached Foreign Office that Italy is ready to give assurance that she will not mount guns above 14-inch calibre on capital ships provided all important naval Powers accept this limitation

This has caused particular satisfaction in London because this means that except Japan, all principal naval Powers as well as a number of Powers with smaller navies have specifically accepted 14-inch guns, thus lessening the risk of upward race in the size of ships and guns.—Reuter's Special.

BLUNT ADVICE TO GERMANY

PARIS, Jan. 15.

Blunt words regarding Germany's desire for colonies and the question of general economic discussion with her were spoken by Moutet, Minister for Colonies in an interview with the "Echo de Paris."

He said he did not believe that the colonial question was one of the ideas to which Germany held fundamentally but that she made use of it for her political game, her demands appearing and disappearing according to the needs of her general policy, especially her European policy.–

The Beneficial Association of Masters, Mates, Pilots and Marine Engineers have called off the strike which has been in progress for some weeks in American Atlantic ports and Gulf of Mexico —Reuter.

Elections Tell On Assembly Work

CONGRESS' DECISION AND ITS SEQUEL

Questions To Go Unasked And Motions To Lapse?

NEW DELHI, January 15.

Pre-occupation of Congress members of the Assembly with provincial elections may be gauged from the fact that, unlike previous years considerably less number of questions have been given notice of.

In fact, it is believed the bulk of questions given notice of so far will be disposed of on the opening day itself since there will be no one to put those questions.

None To Put Questions?

Congress and Congress Nationalist members between them have tabled 95 per cent. of the questions, all of which probably will be treated as unstarred questions and will be included in the record of the Assembly proceedings.

Similarly, in this session probably there will be no Adjournment Motion to be debated on the first day, unlike other previous sessions

FATE OF MOTIONS

It appears, seven motions have been given notice of by three members Messrs. Mohanlal Saxena, S. Satyamurthi and Pandit Lakshmi Kant Maitra. The subjects relate to;—

(1) Conclusion of temporary Trade Agreement between India and Great Britain, in defiance of wishes of the Assembly;

(2) Suicide by Satish Chandra Ganguly in Deoli Jail;

(3) Sir Osborne Smith's resignation;

(4) Non-association of Indians with the Railway Inquiry Committee;

(5) Death of Krishna Pankoj Goswami, an internee at Maldah on November 22; and

(6) Failure of Government to give notice for termination of M. and S. M. Railway contract.

None of these are likely to be moved.

PARTY LEADERS' MEETING

The President of the Assembly generally invites Party leaders for conference to facilitate disposal of business, etc. Among these only Sir Leslie Hudson, Sir Ghulam Hussain Hidayatullah and Sir N. N. Sircar will be present. Messrs. Bhulabhai Desai, Jinnah and M. S. Aney will be absent.—United Press.

FAIZPUR'S PRIVILEGE

To Retain Trunk 'Phone Connection

(From Our Correspondent.)

NEW DELHI, January 15.

Faizpur will have the unique honour of being the first village in the country to be connected with the whole world through trunk telephone. It appears, Post and Telegraph authorities have decided to continue the trunk telephone cables which were fixed for the Congress Week at Faizpur Post Office.

It is said the cost of removing the cables and the apparatus will be prohibitive and not worth the trouble. Thanks to the Congress session in the village, Faizpur will continue to be linked with the Trunk Telephone system

German Press Campaign Upsets Europe

LONDON, January 14.

There is some perturbation in European capitals owing to German Press campaign against Czechoslovakia, alleging Soviet activities there and asserting that groups of men in uniforms of Russian cut and colour are engaged in military exercise near the frontier, but impartial observers in Czechoslovakia state that there is little or no foundation for the campaign and signs of Soviet activity are scarcely discernible.—Reuter.

PRINCIPLES OF ANGLO-CANADIAN TRADE AGREEMENT

LONDON, Jan. 15.

Agreement in principle has been reached between Britain and Canada regarding a new trade agreement which is hoped to be signed shortly.—Reuter.

REBEL ADVANCE ON SPAIN'S NEW CAPITAL

GIBRALTAR, January 14.

Following a day-long battle the insurgents are reported to have captured Estepona, the heavily fortified town "en route" to Malaga

It is understood that Estepona was attacked by an insurgent force of over twenty-thousand including ten thousand Moors and five thousand Italians.

Two aeroplanes dropped bombs on Estepona while several insurgent trawlers attacked the town from the sea.—Reuter.

MANY KILLED IN INSURGENT ATTACK

BARCELONA, Jan. 15.

It is reported from Malaga that many have been killed and injured and serious damage has been done in insurgent land, sea and air attack.—Reuter.

INSURGENTS CAPTURE ESTEPONA

GIBRALTAR, Jan. 15.

It is officially announced from Algeciras that the insurgents captured Estepona, with, it is understood, heavy losses on both sides —Reuter.

CRUISERS PARTICIPATE IN ATTACK ON MALAGA

VALENCIA, Jan. 15.

Air Marine Ministry communique states that the Insurgent cruisers, "Las Canarias" and "Almirante Cervera", a gunboat and smaller vessels participated in the attack on Malaga, also a squadron of two-engined planes.

A Government 'plane dropped two 200 lb. bombs on the "Almirante Cervera" which hurried away to Ceuta. Other insurgent vessels dispersed very speedily.—Reuter.

PHYSICAL CULTURE AT DADAR

Sir J. Boman-Behram's Tribute To Work Of Hindu Gymkhana

Before a crowd of nearly 4,000 persons an exhibition of athletic feats was given by the students of Shree Samartha Vyayam Mandir at Shivaji Park on the ground of the Dadar Hindu Gymkhana on Saturday last when Sir Jehangir Boman-Behram presided. Amongst those present were:—

Diwan Bahadur Godbole, Mr. Survey, M.L.C., Mr. M. R. Tambe, the Chief Accountant, Bombay Municipality, Mr. G. B. Sathe, Messrs. M. N. Talpade, Ishwarbhai Patel, R. K. Vaidya, Municipal Corporators, and others.

Sir Jehangir Boman-Behram in the course of his presidential speech said:—

Physical culture means the upbuilding of the human body by means of proper exercise and careful attention to the law of Hygiene. Many people believe that health is a matter of good or ill-luck. That illness comes to us as the result of divine displeasure or indifference. Probably they do not know that there are definite laws of health. The ancient Greeks in these respects were far ahead of us today with all our boasted civilisation of the mind and through systematic habits of exercise and diet, the Greeks attained a perfection of mind and body—a harmonious adjustment of the mental and physical that made them the wonder and admiration of the pagan world.

I am greatly struck by the work I have seen of this Institution and I congratulate Mr. Kale and others on successfully running this Institution. I appeal to the people of Dadar to come forward with donations to support this Institution financially.

I understand that a grant of Rs. 1,000 was made by the Bombay Municipal Corporation to this Institution but gradually it has been reduced to Rs. 400.

If I appeal to the Bombay Municipal Corporation for a further grant, the Chief Accountant who is here, will object to it but I hope when the matter comes before the meeting, the Chief Accountant will perhaps be there and the Chief Accountant will recommend a grant worthy of this Institution.

Mr. Gore, Chairman of the Institution, thanked the President.

The Secretary then announced the donations to the Institution from the following persons:—

	Rs.
Mr. G. B. Sathe ...	500
Messrs. Hari Mahadeo & Sons, Goldsmiths and Jewellers (Dadar)	100
Mr. G. B. Joshi	25
Mr. Narayenrao Kelkar ..	25

Sir Jehangir Boman-Behram then distributed the certificates and medals to the students, who had passed the examinations of the Institution.

Afterwards Mr. Sathe who made a handsome donation to the institution was garlanded and the pleasant function terminated.

Children often overtax their ENERGY RESERVES

IF a child is listless and tired it's so often because he's overtaxing his energy reserves—suffering from ENERVATION. You see, in addition to growing, children use up more energy for their size than grown-ups, just in playing and running about—no wonder the strain is sometimes too much for them.

Horlick's given regularly at mid-morning or at bed-time provides children with just those vital nourishing elements they need for growth and extra energy. They like its taste, and it gives them a new sturdiness and vigour.

MADE in a moment, hot or cold, Horlick's is extra delicious when prepared with the Horlick's Mixer. Obtainable at stores or from P. O. Box 2229, Calcutta, for As. 14 in stamps.

TO THE EMPLOYEES OF THE GOKAK MILLS, LIMITED

The Company would ask the workers to look back over the past five years and consider what the Company has done for its employees.

HERE ARE SOME OF THE FACTS AND FIGURES WHICH SPEAK FOR THEMSELVES.

The mill village which was built at an approximate cost of Rs. 3,00,000 at present accommodates 2,000 of Mill workers, and in addition, approximately 5,000 dependents of workers. The fees charged are merely nominal, in the case of some classes of employees no fees at all being charged.

The rates of wages paid by the Company are higher than those paid by any other Cotton mill in the District. This is shewn by the Wages and Unemployment Report published by the Labour Office of the Government of Bombay.

The Company has provided its employees with three Schools, Hospital, free medicines, Play ground and Recreation Park, and guarantees its employees against high prices of food grains.

The Company's Provident Fund makes provision against their retirement in old age for over 2,000 workers, and is open to all.

Study these figures and compare them with conditions in other centres.

During five years the Company has spent no less than Rs. 4,10,000 in an endeavour to better the condition of the workers and this sum is in addition to a payment in wages and good attendance bonus amounting to Rs. 28,56,296.

Consider these figures and ask yourselves if the Union, who are now keeping you from your work, have anything to offer better than you have already received, or that you are likely to receive in the future if you have confidence in your Management and return to work.

Q: *"What is the best way to build up Health & Strength after Illness?"*

ANGIER'S is the answer

During convalescence, Angier's Emulsion is invaluable for healing and strengthening the weakened system. After influenza, pleurisy, bronchitis, or any illness affecting the chest or lungs, there is nothing that will so surely heal the diseased lung tissue, give tone and vitality to all the bodily functions, and build up the general health and well-being.

In catarrhal affections of the stomach and bowels and in nervous 'run-down' conditions, it is equally efficacious. It soothes the mucous membrane of the stomach and intestines, corrects digestive and bowel irregularities, promotes normal, healthy appetite, overcomes nervous depression, and generally increases vitality.

Prescribed by the Medical Profession for over 40 years, and extensively used in hospitals throughout the country.

Angier's is the most palatable of all emulsions and agrees perfectly with delicate, sensitive stomachs. Equally useful for adults and children.

"Frequently prescribe Angier's"

A Doctor writes: "In great appreciation of Angier's I wish to state that I have derived decided benefit from your preparation, not only with regard to a persistent laryngeal cough, but also gastro-intestinal trouble, and general malaise, etc. I have frequently prescribed it for cases of debility, bronchitis, etc., and have not found one but which has done well with it." (Sgd.)——, M.B. Ch.B.

Of all Chemists and Bazars in two sizes.

Angier's Emulsion contains no animal oil, and in its preparation is untouched by hand. It is therefore acceptable to all castes and religions.

BOMBAY: SATURDAY, JANUARY 16, 1937

PUBLIC HEALTH IN INDIA

The annual report of the Public Health Commissioner with the Government of India for the year 1934 shows that the public health of the country is not improving to any appreciable extent. Compared with 1933 and the quinquennial mean the number of registered deaths, 6,856,244, shows an increase of 759,457 or over 12 per cent. and of 1,596,566, or 30 per cent. respectively. The death rate of 24.9 per thousand has increased by roughly 3 per thousand over the rate for 1933 and by 1 per thousand over the quinquennial mean. In the Bombay Presidency, however, the death rate is 24 as against 25 during the quinquennium 1929 —33 and against 24 in 1933. Comparing the death rate of 24.9 in India with that in other countries, we find that the rate is 11.8 in England, 15.1 in France, 10.9 in Germany, 8.4 in Netherlands, 8.5 in New Zealand, 11.0 in U. S. A., 18.1 in Japan and 26.6 in Egypt. Among the countries mentioned in the Report, Egypt and India show the highest rate and Netherlands and New Zealand, the lowest.

High Death-Rate

Infantile mortality continues to be frightfully high in the country, 187 infants out of every 1,000 born are reported to have died in 1934. The rate compares very unfavourably with that of 171 in 1933 and 176 in the 5-year mean. In Bombay Presidency the rate was 167 in 1934 as against 161 in 1933. The infantile death rate in other countries is 166 in Egypt, 125 in Japan, 60 in U. S. A., 59 in England, 69 in France, the lowest rates being 32 and 43 in New Zealand and Netherlands. India has thus the notoriety of showing the highest infantile mortality in the world. Commenting on the causes of the high death rate in India, the Commissioner says: "The poor nutrition of the mother, overcrowding, a high birth rate and high maternal mortality rate, frequent prematurity and the prevalence of respiratory diseases, convulsions, malaria and syphilis, combined with wide-spread ignorance of infant management, all contribute to the great loss of infant life in India." Child marriages are one of the important root causes of both high infant mortality and also of high maternal mortality. But, unfortunately, they are still common, as the Sarda Act does not go far enough to remedy the evil.

Solution Of The Problem

"Public attention," says the Report, "is focussing more and more upon the continuing high rates of infantile and maternal mortality. Schemes of control are being pressed on local bodies and evidence is not lacking that the Public Health Departments, notably in Madras, Burma and the Punjab, are alive to their responsibilities." It is true that the subject of maternal and child welfare is now receiving more attention than it did, say, a decade ago. But still the attention is still far from what it needs to be. 150,000 mothers die annually in the country directly or indirectly as a result of maternity. The detailed figures show that maternal mortality is higher in urban than in rural areas in spite of the better medical facilities available in the former. The problem, therefore, is not merely one of extending medical facilities to rural areas, though such extension is necessary to combat disease in general in these areas. It needs a more searching investigation. Many of those that have given deep thought to the subject agree that increased income leading to higher standard of life, prevention of child marriages, the abolition of the purdah, judicious use of birth-control methods, popularisation of essential sex knowledge, and extensive training of midwives and dais are among the most necessary means to combat maternal mortality. This is a subject which calls for earnest organised effort on the part of Government, local bodies and the public in general. Concentration on maternal and child welfare is now recognised everywhere as a potent means of promoting public health. It touches the problem of national health at the very root.

Need For Staff Work

Of the many hints given by the Congress President from time to time to make the election propaganda most effective perhaps the most useful is about the urgent need for staff work. Everywhere, he says, there is abundant enthusiasm for the Congress cause. But he rightly adds that mere enthusiasm and mass demonstrations cannot win elections and that the election propaganda must be intelligently planned and thus calls for well-organised staff-work. The most essential item in every election campaign is personal contact between the voter on the one hand and the candidate or his agent on the other. Such contact is best maintained with the assistance of a regular staff of volunteers working according to a well co-ordinated plan.

Another excellent election hint suggested by the President is that rural voters should be encouraged to join parties marching together on foot from their villages to the polls with the national flags and singing national songs. The method will not only rouse enthusiasm for the Congress all over the area traversed but will also prevent poor isolated rural voters being bullied by wealthy and influential rivals of Congress candidates. It is clear that to manage the huge number of voters, both in the urban and rural areas, a very large number of volunteers is necessary during the next few weeks. We trust earnest Congressmen will, without any delay, offer their services for the election work.

Anglo-Irish Talks

Taking advantage of the presence of the President of the Irish Free State in London, the British Dominions Secretary has had long interviews with him. And it is a tribute to the freedom of the Irish Free State and the uncompromising patriotism of its President that British political circles hang on his words and eagerly express the hope that de Valera will be amenable to a settlement on outstanding question. Many subjects were discussed, but it is clear that Mr. de Valera will not relent on the constitutional issue and we have no doubt that an elastic Britain will cheerfully bend before him. He will attend the Coronation, participate in the Imperial Conference and endorse British Foreign Policy on his own conditions and in his own way. Where Britain shows lack of elasticity, de Valera will stiffen and remain stiff. "Financial differences" which have been outstanding for years are an instance in point. Conversation about them were only "inactively pursued"!

Our Readers' Views

Yogic Exercises

To The Editor of "The Chronicle."

Sir,—As one who has benefited considerably by the course of Yogic exercises prescribed by Swami Kuvalayananda at Kaivalyadhama Health Centre at Marine Drive, I may state that the Swami's system of physical culture is no fad but a very sincere attempt at applying the time honoured Yogic exercises (Asanas) to the cure and prevention of diseases and deformities in a rational and scientific manner.

The fact that a thorough medical examination including laboratory tests by a competent medical officer attached to the Home always forms the basis of Swamiji's formulae of Yogic Asanas, coupled with appropriate dietary in each case speaks for the scientific outlook of the originator.

Secondly, the assistant staff of male and female demonstrators who follow the Swami's instructions to the minutest details in taking the patients in their charge through various exercises with precision and care are themselves experts at these exercises.

Over-exercise is strictly forbidden. Individual attention and searching medical examination at stated intervals throughout the period of treatment distinguish this system of Physical Culture as pre-eminently rational and scientific.

A special system of Asanas is devised for women, which developes the two important groups of muscles in the female body namely the abdominal and pelvic muscles and these are the muscles chiefly concerned in maternity and childbirth.

The problem of maternal mortality would not be so overwhelming in the city of Bombay if more women realised the importance of physical culture in their early womanhood.

And for those that are favourably inclined towards the physical culture Kaivalyadhama Health Centre affords the very congenial means of attaining health in a practical and national manner.—Yours, etc.,

(Mrs.) TARAWATI M. DESAI, B.A.

Muslims And Party Labels

To The Editor of "The Chronicle"

Sir,—In discussing the relative merits of the different candidates some Muslim voters seem to attach undue importance to party labels.

But what do party labels really signify? If a candidate styles himself Independent, does he become one in spirit? Take a bunch of paper flowers and call them by whatever name you like, will they smell like nature's own creation?

Party labels have meanings when there are parties organised on a sound basis with the principles laid down and programmes chalked out.

Have any of our Muslim parties a programme? How long have these parties been in existence. The Muslim League, as we all know, has only recently become active because of the elections. The same election have created the Independents.

The Congress has been an organised party and has existed for certain principles. The Congress has resolved to pursue a certain line of action and those who vote for Congress are left in no doubt as to what they should expect.

Of all the three parties the voters are called upon to consider, the one that deserves their serious consideration is the Congress. As for the League and the Independent parties, they have become suddenly active in view of the elections, and you need not be surprised if they revert to their former state as soon as the elections are over.

If the voters cannot believe this let them enquire into the past history of the Muslim Independents and the Leaguers. What have they been doing for the Muslims or the country?

How have the Independents and the League selected their candidates? What has been their guiding principle? Are the candidates they have selected in a position to serve the interests of the community?

These questions are unpleasant and I would not have asked them but for the fact that the interests of the Muslims of this presidency are at stake.

There was a time when being elected to the legislatures was an honour. To-day, it is a serious responsibility, gone are the days when the Muslim members could sit with folded hands in their seats and vote on questions as their friends could guide them. To-day, we are faced with a number of constitutional problems of far-reaching importance. The candidate we send to the

A Doughty Fighter For The Down-Trodden & Exploited Of Every Country

By A. K. MEHTA

"Dear old Saklatwala! I feel so sorry for him. Don't you think his life has been completely futile? If you look at what he actually achieved, you can't help feeling sorry for the tremendous waste of talents. An exile from his motherland,—and there too he could influence only a particular group—breaking his head against a stone wall all his life—he raved and harrangued in Hyde Park and on the street corners of Batter sea but like Cassandra nobody but a handful of old converts heard him. While if he had taken to something really constructive..."

I am not in a position to report the rest, for this pompous blather was absolutely giving me the jitters, and I couldn't stand any more of it. I immediately made a bee-line for the front door, and made an unceremonious exit from the tastefully and expensively furnished drawing room of a friend of mine.

"A Futile Life"!

This happened exactly an year ago. The news of Saklatwala's death had just reached us and my friend—a prosperous Babbitt of Bombay—started discoursing in the above fashion till the moment when he heard the front door slam terrifically and realised that he was also addressing an audience already converted to his own view point, namely, himself and his modernist furniture.

The fellow must have some cheek, I thought to myself, to find futility and waste in the heroic struggles and crusades for the downtrodden humanity, that was Com. Sak's eventful and multicoloured life. Futile indeed!

But my friend was one of those who think that achievement is a synonym for making a big pile. They would not admit that a life is well-spent, unless it is dedicated to money-making or spent in serving those financial wizards who control money power. My friend, the Babbitt, would no doubt have felt great admiration for Mr. Saklatwala, if he had been one of those successful business executives, who flatter their way to the top of the social ladder.

Imbecile Tests

If Saklatwala were a doctor and had made his way to fame and fortune, he would have been acknowledged as a first rate doctor. If he were a lawyer he would have been duly appreciated. Even if he had been a "sober" politician serving his country, (unscrupulous racketeer to you) he would have been applauded for his constructive efforts to ameliorate his fellow citizens.

But he was never cut out of the pursuit of what William James called the 'Bitch goddess success.' He lacked the cunning of a successful financier, the prudence and opportunism of a successful politician, the pliability character of a successful professional. In fact Saklatwala lacked every quality which makes for success in a world where, as the brilliant writer "Vanoc II" puts it "Success is the wage of cautious mediocrity."

A Picturesque Personality

So these men with a stake in the country—the Babbitts—who judge everybody by their own imbecile tests of social "success" shed crocodile tears and had even the audacity to pity such a picturesque and dynamic personality as Com. Sak.

They pitied him the more because he had very influential connections and hence if he were a self-seeker, could easily have got on in life and followed the footsteps of the great Tatas, to whose family he belonged.

But poor Sak! So impractical! So whimsical! So emotional! So uncompromising!—So futile!

Yes, it is exactly here that Sak's greatness lies—Impractical? He dreamt of a social order in which the new humanity would be free from all the unnecessary and harmful inequalities and injustices—the kind of social order under which one sixth of the world has been living for the last two decades and building up the new classless civilization.

Whimsical? He was utterly regardless of conventions and free from the hypocritical bourgeois ways of life.

Emotional? He deeply and bitterly felt the shattering and maiming influence of capitalist exploitation on the lives of working men, women, and children. And his indignation did not stop at lip sympathy. He actually participated in the day to day struggles of the exploited workers.

Uncompromising? He never compromised with safety. Once he chose his path he went forward without ever thinking of the consequences. He was no wobbly carreerist and so he believed in constantly giving a relentless battle to Power, Property and Privilege. It was against his nature to have any truck with the enemies of working class movement.

A Fighter

But futile? Only a fool or a deliberate perverter of truth could say that his life work has been futile. Even if Saklatwala loosened one prop of the crumbling and tottering edifice of capitalism, his life's mission was fulfilled. He never wanted to patch up or white-wash the decadent structure. He never believed in quack remedies. He was opposed to monkey gland operations on the senescent capitalism. He had an undying faith in the abilities of the militant working class, and he tried to guide and help them to perform their historic task of demolishing capitalism and building up a social order, based on social justice and economic freedom for the lowest.

He was always in the forefront of any struggle against oppression and injustice. One of his mottoes was that it is not the martyr but the fighter who determines the fate of a community.

Beloved Of Workers

He possessed to an extra-ordinary degree the type of courage, which is much higher and rarer than military courage, viz., civil courage. Most men are brave on the battlefield, few men are brave in civil life.

Where he found oppression or injustice, he rushed to the aid of the victims and fought shoulder to shoulder with them against the exploiters.

That is why Com Sak was the hot favourite of the English workers, and anybody who had seen him with his shabby suit and pique cap, going about, laughing and talking with the workers in the slums of East End and Battersea would realise how much he was loved and looked up to by the British workers.

Sak of course knew no distinctions of race or nationality. He supported with the same zeal, the struggle of the Chinese toilers, the Indian Kisans, the English workers and the African masses.

Support To Congress

Being an Indian, he naturally devoted most of his time and energy to help the struggle of Indian Nationalism against British Imperialism. Many people feel that his services in the cause of Indian freedom were not properly appreciated by Indians. But he never worked for rewards or recognitions.

His outlook was fundamentally different from the Gandhian approach to life. He had many differences of opinion with the leadership of the Congress. But towards the end, he advocated the policy of building up a Popular Front with the help of the biggest and most powerful mass organization of India, viz: the National Congress.

FRANKLY SPEAKING

GOERING IN ROME.

The visit of General Goering, Assistant Fuhrer, to Rome, marks less the solidarity of Germany and Italy than the fact that all is not quite well between the two. It is an open secret that, in spite of spiritual and ideological affinity with Herr Hitler, Il Duce has not been fully satisfied with the former's adventures and policies and he has also realised that Nazi interests occasionally cut across those of Fascist Italy. Signor Mussolini, as a statesman, is nothing if not a true decendant of that historic Italian, Prince Machiavelli, and he is also never averse to dropping a friend with remarkable suddenness. It is quite possible that Hitler has realised the danger, whether it is remote or immediate. In any case it will not take long to find out how Hitler and Mussolini stand. The response to the German demand for a landing station in the Dodecanese—it will certainly affect the recent *status quo* agreement—will furnish the test.

PUBLIC AND THE POLICE.

The Sind Governor's homily on the relations of the Police and the Public would have created a better impression had not the Indian police such an inglorious record as an instrument of repression. More than the maintenance of civic peace and order the business of the Police in India seems to be to put down political activity. Their failure to create public confidence in themselves cannot so airily be ascribed to the apathy or ignorance of the people. Nor has the average member of the British-officered Indian police manifested any strong sense of public service. They hardly seem to realize, in fact, that they are public servants and complaints of high-handedness, corruption and bribery against a number of Policemen and Police officers have unfortunately shown an increasing tendency during recent years. If the Indian Police do not get the same sympathetic co-operation from the public as their confreres in other countries surely there is something wrong with the system which directs "law and order" in this country. The Governor was perfectly right when he said that "the duty of gaining the confidence of the public is laid upon everyone of the police force." But instead of apportioning the blame to the public he ought to ponder over the reason why the Indian police has yet to win over the respect and esteem of the large mass of the people. Only as a friendly and helpful force of public servants can the force command co-operation from the public.

A SHOCKING CRIME

We have before us several documents by responsible persons conveying the news of a horrid crime in connection with the election activities in the Gorakhpur District in U. P. It is alleged that one Mr. Purnamashi Chamar, a Harijan candidate on behalf of the Congress from Maharajganj Tahsil, received threatening letters at the time of primary election in December last and later learnt that his wife was beaten to death during his absence from home but he could not even trace her dead body. The documents with us involve several responsible persons in this atrocity directly or indirectly.

NEED FOR INQUIRY

Another shocking report now comes from the same province according to which there was a conspiracy to murder a Congress candidate from Muttra East by name Chaudhiri Shiv Mangal Singh but the plan was frustrated as he received a timely warning from a police officer himself. It is necessary for the local authorities to institute a searching inquiry into all these cases and bring to book all persons responsible for it, whoever they are. It is a grave position, indeed, both for Government and the public, if people can with impunity resort to violent crime in their election propaganda.

PATRIOTIC LEAD.

We congratulate the Working Committee of the Girni Kamgars' Union upon the most opportune and patriotic lead it has given to its members by deciding—with a unanimous vote—to support the Congress candidates standing for election to the Assembly from the E, F and G wards and the suburbs. It is needless to dwell here upon the unnecessary controversy which has arisen in this matter, for the statement issued by the Secretary of the Bombay Provincial Congress Committee in this connection fully vindicates the position of the Parliamentary Board. We are glad to note that the G. K. Union has loyally decided to support the Congress candidates inspite of their own natural affinities with the T. U. C. They have thus not only given a lead which must be followed by other organisations throughout the country, but also finally exposed those who were out to exploit the situation by misrepresenting Congress as being against Labour.

WITHOUT COMMENT

The "Nationalist" forces of Spain, which are reported to have captured Estepona were composed of—

(1) Ten thousand Moors.
(2) Five thousand Italians, and
(3) Five thousand Spaniards.

It is reported that Sir Frank Noyce who had interviews with Messrs Joshi and Giri was inclined to accede to the B. N. Railway strikers' request but, Sir Mahomed Zafrullah who had interviews with the Agent, opposed.

The result was obvious.

Government's letter of January 8, refuses a Board of Conciliation because, "They have come to the conclusion that no useful purpose would be served by taking the action suggested."

None. Saving workers from being starved into submission is the reverse of useful.

Subsequent discussions also have led Government to "the conclusion that there is no justification for appointing" a Court of Inquiry.

Quite so,—in view of the fact that the Agent has supplied all the information that matters to bureaucratic justice.

The Bombay Citizens' meeting to help the B. N. Ry. strikers was presided over by Comrade Jamnadas M. Mehta.

We congratulate Comrade Mehta for the active and sustained interest in the cause of these workers. And we do earnestly hope he is not brought on the carpet by his leader Mr. L. B. Bhopatkar for his un-Democratic Swarajist sympathy with Labour and striking Labour at that.

A Congress candidate and his Justicite opponent (the President of the Madras Legislative Council) addressed voters from the same platform, says a Nellore report.

We certainly do admire the moral courage of the Honourable President.

* * * *

The main argument, the Honourable President urged in his favour was that in Britain the Speaker is not opposed in his constituency.

He forgot that elections are not fought in Britain on the issue of freedom or compromise with it, between a Britisher standing for Independence and a Britisher enthusiastically advocating the sovereign rights of a foreign country.

And that is the main argument not only against the Honourable President but against his whole Justice Party.

* * * *

The Congress candidate promised introduction of the British Convention "when Swaraj was established."

Correct but rather cruel. When Swaraj is established where will the "Justice Party" be?

Having first elevated the rebels to the position of belligerents the Non-Intervention Committee now demands control over the Spanish Government's gold.

One almost feels inclined to relate, with due modifications, the fable of the monkey and the two cats.

According to the French Minister for Colonies: "the Colonial question was one of the ideas to which Germany held fundamentally but that she made use of it for her political game, her demands appearing and disappearing according to the needs of her general policy, especially her European policy."

Principles and practice of Nazism in fact.

Mr. Newrich had been asked to distribute prizes at the local school. During his speech he dwelt on the benefits of education. "What a wonderful thing is education!" he said. "Now, take arithmetic. Honour Of Country Is In Hands Of Voters

CALL TO CAST OFF LETHARGY

Bombay Must Learn Lesson Of Last Assembly Election

The Congress and its workers were confident of the support of the voters for its candidates in the forthcoming elections to the Bombay Legislative Assembly. Bombay which had been in the vanguard of the Indian struggle for Independence and willingly supproted the Civil Disobedience Movement at considerable risk and trouble, was certainly not going to lag behind in its solid support for the Congress candidates.

Voters' Indifference

But there was the fear of the voters becoming indifferent and not going to the Polling Booths on the Election Day. That would mean disaster. What was the use of having thousands of loyal supporters, if they did not prove their loyalty at psychological moments?

Learn From Experience

The people of Bombay should remember and learn from the lessons that they learnt from the last Legislative Assembly elections. Because all the Congress supporters did not go to the Election Booths, as was expected of them, one of the Congress candidates had to fail for want of a few votes.

Bombay should return all the candidates set up on behalf of the Congress, then alone would it preserve the fair name of the City, as the centre of all political activity in the country.

Thus declared Mr. Nagindas T. Master, Vice-President of the Bombay Provincial Congress Committee and one of the candidates from the A, B, C and D Ward Constituency at a meeting held on Friday night at the Jawahar Chowk, Mandvi. Dr. Jethalal Vora was in the chair.

Dr. Jethalal Vora in the course of his speech said that during the last Assembly elections Madras showed the way to the rest of the country by solidly voting for the Congress candidates. The result of the elections there had its influence on the voting in other parts of the country. He hoped that Bombay would give the lead to the rest of India in the forthcoming elections.

TRIBUTE TO CITY'S PATRIOTISM

Mr. Nagindas Master in the course of his speech reminded the audience of those glorious days of Civil Disobedience when thousands gathered to pay respects to the National Flag and proudly declared that they would defend the honour of the flag at any cost. The people of Bombay had always cheerfully responded to the call of the Congress every time. By now the claim of the Government that after the second Civil Disobedience movement the Congress was no more as powerful as it was, had been disproved. The people, who hankered after freedom could never forget the services and sacrifice of the Congress. How could they when that was the only organisation which fought for their rights, fought for the starving millions in the country? The people knew that the Congress had been carrying on the struggle for Indian Independence and would continue to do so till India won freedom. Was there any other organisation in the country or any set of people who could claim the same thing? None.

The speaker warned the voters against indifference as that was bound to create difficulties towards Congress having cent per cent success. The voters should not expect conveyances. They must feel it their duty and march to the Polling Booths on foot, if necessary, as Pandit Jawaharlal Nehru had declared, and vote for the Congress.

ALL FOR CONGRESS

Mr. Dhirajlal Bhatt, assured the Congress candidates and the Congress leaders on behalf of Mandvi that not a single vote out of the twenty-two thousand votes would go to anybody outside the Congress. He for one was sure that those who opposed the Congress would lose their deposit money.

SOLDIERS OF CONGRESS.

Mr. Ganpatrishanker Desai, General Secretary of the Bombay Provincial Congress Committee, in the course of his speech said that the Congress had not come to the Voters to beg for votes. It was for the Voters to consider the 'pros and cons' and decide for whom they should vote. The voters should take into consideration that the Congress Candidates were not contesting the elections in their individual capacity. They were set up as soldiers on behalf of the Congress. The Congress had consistently gone on fighting for the rights of the people. If all the voters exercised their right, there was no doubt that Congress would come out victorious.

A TRIED CONGRESSMAN.

Concluding Mr. Ganapathishanker told the audience that Mr. S. A. Brelvi was contesting the Muslim seat from that Constituency on behalf of the Congress. Muslims of the locality had business connections with the general constituency voters. He appealed to them to avail of every opportunity—there would be many opportunities during the coming few days—to convince their Muslim brethren of the necessity of casting their vote in favour of Mr. Brelvi in preference to others. Mr. Brelvi was a tried Congressman, who had stood by the Congress through thick and thin. He was a patriot, whose sacrifice and services in the cause of country's freedom was well-known.

With a vote of thanks, the meeting terminated.

ELECTION CAMPAIGN IN "F" WARD

Appeal For Volunteers

The Hon. Secretaries of the F Ward Election Committee, write:

Hardly a month is before the voters in the E and F Wards Constituency for the Bombay Provincial Assembly. Within this one month all the requisite organisation for the complete success of the Congress candidates must be completed. The task is not easy and needs the willing co-operation of an army of volunteers. The work of approaching each and every voter has been going on. But the area is so vast that it requires more and more workers.

For the E and F Wards Constituency, the Congress has put up Mr. Jinabhai Joshi, Dr. M. D. D. Gilder and Mr. Baloo Babaji Palwankar. Mr. Baloo has been selected to contest the Scheduled Caste seat in the Constituency as against Dr. B. R. Ambedkar backed up by all forces of reaction.

As has already been stated, the need for a large number of willing workers is very urgent. The forces opposing the Congress in this constituency are formidable. Verily the Congress will be fighting the battle of the entire nation in this constituency. All those who help the Congress win here are really doing their bit for the cause.

The following three have been put up by the Indian National Congress to contest the three seats from the E and F Ward Constituency on the Provincial Assembly:—

(1) Sjt. Jinabhai P. Joshi
(2) Dr. M. D. D. Gilder and
(3) Sjt. Baloo Babaji Palwankar (Scheduled Castes).

The election campaign has been going on in right earnest in the constituency. Volunteers and workers have been going from door to door carrying the Congress message and distributing the Congress Election Manifesto. Every attempt is being made to approach every voter. But there is urgent need for more volunteers and workers.

For the purposes of facilitating efficient election work the following centres have been opened in the F Ward:—

(1) Central Office, Kavarana Building, Poibavdi, Parel.
(2) Nappoo Hall, Matunga G. I. P. Railway.
(3) Opposite China Mill, Sewri.
(4) Dr. Gavankar's Dispensary, Kalachowki.

All those who are willing to work for the Congress success in the elections are requested to give their names and the time they can devote at any of the above offices. There is hardly one month for the elections and there is such a tremendous lot of work to do.

'Towards Successful Life'

To The Editor of "The Chronicle

Sir,—As one of your regular readers, let me first congratulate you for initiating "Towards Successful Life". I read the article with great interest and I am glad that you have invited suggestions from friends and readers of the "Bombay Chronicle".

Judging from the standard of living in America and other European countries, India's standard of living is most deplorable. There are many reasons for this state of affairs and I don't propose to enter into discussion. However, one point I wish to bring to the notice of the readers is that the existence of bars and toddy shops is to a large extent responsible for the present state of thousands of our people.

Men who form the bad habit of drinking spent most of their earning on toddy and liquor and the consequent result is misery and poverty. If these people could be educated through pictorial posters and other visual means showing the harmful effects of drink, I believe, we would be laying foundation for good citizenship and successful life.

The first step in this direction is for the Government and Municipality to stop issuing licence to liquor dealers and toddy shop owners. From this suggestion I know the many interested parties would raise a storm of protest but if the governing bodies are determined to see the people in better circumstances, they are in a position to initiate prohibition.

The second step is to provide educational movies for the amusement of the people. And if the people can form the habit of attending these movies then it is quite possible to kill the bars and liquor shops, especially when the Government and the Municipality, because of money-making proposition, refuse to initiate prohibition.

The third step is to organise "Temperance Societies" all over India to vigorously carry on Educational campaign against drink as the most uncompromising enemy of home and society.

In conclusion I believe that most of the readers of your esteemed paper, will agree with me that "drink money can go into food, clothing and shelter", as such it is the duty of every citizen, Government and Municipality to see that prohibition comes into force immediately and thus help thousands of our people "Towards Successful Life."—Yours, etc.,

A FACTORY SUPERINTENDENT.
Laxshimi Nivas,
Vincent Road, Dadar,
Bombay, January 12.

Scene in a liquor shop:
Ready for another glass—Workers who are habitual drunkards neglect their families. Hard drinks cause blindness—a source of misery and ultimate destitution. More often than not men of this type are inefficient and, jobless, wander in the streets.

In a toddy shop, Parel, where workers waste money. One man with head down in the group seated on the bench has reached his limit. He is in a mood for anything under the sun, from picking quarrel to beating his wife. Note the man sitting near the fence. He likes drinks, but covers his face with a newspaper in shame. These human wrecks are a liability in our social order. Drinks contribute heavily toward crime, disease and poverty.

MUSLIMS AND PARTY LABELS

(Continued from page 6)

Assembly must be one who knows the implications of his position, who is alive to his sense of responsibility and who knows the task he has to perform.

We do not want our representative in the Assembly to be a dummy, a figure-head who will look to others for guidance. We want one who can watch and protect our interests, who will study our problems the political needs of the community and make us feel that our interests are not being neglected.

But such a representative must be an astute politician, a man of education and culture. He may belong to any party. So long as he is a capable man, our interests are safe. If we send a dummy to the Assembly with the best of intentions, our efforts and the efforts of our representative will all be wasted.

As a Muslim, as one who is keenly interested in the future of the community, let me frankly tell my brethren in faith that it is useless to go by outward appearances, by promises of future deeds and by the glamour of party labels.

When we think of the different candidates who are soliciting our votes, let us not consider to what party, they belong but firstly whether they are Muslims in spirit or not and secondly whether they are really capable of carrying the onus of their political responsibilities.

Personally, as a Muslim and an Indian, I cannot see eye to eye with the Congress. But that will not prevent me from casting my vote in favour of Mr. Brelvi, the Congress candidate.

The party label of the Congress as the party label of the League or the Independent Party has nothing to do with our vote. If, it is a question of Congress being extremist in political matters, what will you say of the League that constantly flirts with the Congress is more outspoken at times than the Congress itself, but invariably turns its back to the wind?

Is it not better that we know where we stand rather than live in suspense as to how our representatives are going to shape our destiny in the future.

We have no quarrel with the Congress as far as the elections are concerned. The Congress is going to try the new political scheme the same way as any other party.

Regarding Mr. Brelvi's ability, every one will admit that as a sincere worker and a serious student of politics he will be an ideal representative of the Muslim interests. Our concern, first and last, is with our interests and we may rest content with merely an assurance of one who will honour his election pledge and who by reason of his high education, culture and status in public life will be of greater service to Muslims than men with ample financial resources and other support.—Yours, etc.,

S. M. SAID.

FUTILE RESORT TO STONE-THROWING

But Congress Meeting Goes On Unhindered

(From Our Correspondent).
POONA, Jan. 14.

Throwing of stones is reported to have been resorted to by adverse elements in their attempt to break up a Congress electioneering meeting in the Shukurwar Peth last night. A member of the audience is reported to have been injured, but the meeting continued unhindered despite this disturbance.

Seth Jamnalal Bajaj, member of the Congress Cabinet, addressed an electioneering meeting at the Someswar temple to-night wherein the speaker exhorted audience to stand by the Congress in the coming elections.

KUMARI HATHISING TO WED S. N. TAGORE

MUNIFICENT GIFT.

It is understood here that the University authorities have favourably considered the application of the Ahmedabad Education Society, for opening an Arts College in June 1937. It is to be named "Sheth Lalbhai Dalpatbhai Arts College" and a handsome donation of rupees two lacks has been given to the Society by Sheth Kasturbhai Lalbhai, and his brothers for the Arts College The University is said to have laid down a condition that the Society should collect rupees one lac and a half more, for conducting the Arts College, and it now becomes the duty of the citizens of Ahmedabad, to collect the amount and have the College in their midst. It is hoped that the Society, with Principal A. B. Dhruva as its President, Sheth Kasturbhai Lalbhai as Chairman of the governing body, and Sjt. Jivanlal Divan as Secretary, has inspired sufficient confidence in the City, and all lovers of higher education in Ahmedabad will give their quota to satisfy the demand of the University authorities.

SINEWS FOR ELECTION FIGHT

Congress Call For Men And Money To Ensure Success At Polls

The Propaganda Secretaries of the Bombay City Parliamentary Committee have made the following appeal to the citizens of Bombay:

It is exactly one month and one day from now when the citizens of Bombay and Suburbs who are voters will have to go to the polls to select their candidates for the Bombay Legislative Assembly. We have not a shadow of doubt what the vote of citizens is going to be. However, there are a thousand and one difficulties in our way and unless they are removed the task is bound to be very difficult. The work before us is enormous and the time and resources at our disposal are limited. Unless thousands of voluntary workers come into the field and assist the Congress in its Campaign, it would be well-nigh impossible to bring over three lakhs of voters to the Polling Booths.

RESPONSE TO APPEAL.

Some days back we made an appeal to the citizens, and especially to the young men and women, to enlist themselves as election volunteers and help the Congress in its propaganda. We are glad to announce that many enthusiastic young men and women, and especially students, are coming to the Congress House and enrolling themselves as voluntary workers. We have so far received applications of more than a couple of hundred workers. Although this seems to be quite a considerable number, it is nothing when we consider the vastness of our task. We have once again to appeal to young citizens to enrol themselves as election volunteers in large numbers and thereby guarantee cent per cent success of all the Congress candidates.

A number of Election Centres have been opened in every constituency of the City and Suburbs and it is quite easy for workers to attach themselves to the nearest centre so that they may be able to render maximum service with minimum inconvenience to themselves. The immediate work for all these election volunteers is to approach every voter and impress upon him the absolute necessity of coming to the Polling Booth and casting his vote to the Congress Candidates. If at least seventy five per cent of the voters go to the polls we are absolutely certain that the Congress will have cent per cent success.

BIGGEST DIFFICULTY.

The biggest difficulty in the way of the Congress is the paucity of funds. The anti-Congress candidates are all persons with long purses. Whatever may be the sympathy and support that the Congress candidates can get from a very large majority of voters, it is almost impossible to make the campaign a thorough-going success unless adequate funds are made available for such a campaign. This is, no doubt, a most difficult task in view of the heavy demands that are made on the purse of the common man from time to time. However, we have got to find out means and methods to cope with this difficulty as well.

COLLECTION WEEK.

It is proposed a week should be set apart for concentrated effort all over the City and Suburbs to collect funds. The week will be called the "Congress Election Fund Week" which will begin to-morrow, 17th January, (Sunday) and end on the 26th Jan. which is the Independence Day. During all these ten days, special efforts will be made to approach as many citizens as possible for big and small donations for the purposes of the Election Campaign. In order to make the collection a popular one, Congress Coupons of the face value of Rupees Ten, Rupees Five and Rupee one have been issued by the B.P.C.C. These coupons will be sold by a number of voluntary workers including lady volunteers of the Congress.

ON INDEPENDENCE DAY.

On Tuesday, the 26th January, which is the Independence Day there will be mass collections by selling Congress Button Flags. The idea behind these coupon and mass collections is that it should be within the means of a large number of middle class and poor people to contribute their mite to the election fund.

We have earnestly appeal to the citizens of Bombay to respond to the Congress call as they have done on every occasion and make the election campaign a triumph for the Congress.

CONGRESS STANDS FOR PURNA SWARAJ

Karnatak P. C. C. President Warns Against Voting For Crumb-Seekers

(From Our Correspondent).
HUBLI, Jan. 15

Messrs. Sidappa Hosmani, Rangrao Diwakar, and Andanappa Jakli addressed a large meeting yesterday night. Mr. Hosmani briefly narrated the work done by the Congress Party in the Assembly. He, however, asked the public not to enthuse over small achievements. Congress struggle was not carried on to obtain such crumbs. The ambition of the Congress was much greater and nobler. The Congress would not be satisfied with anything less than, "Purna Swaraj." Congress would never rest until it had established a people's Swarajya in India.

Proceeding Mr. Hosmani explained the Congress Election Manifesto. He concluded with an exhortation to vote for none but Congress candidates.

Messrs. Diwakar and Jakli also urged Congress claims to popular support and warned voters not to be tempted by devices of anti-Congress candidates or their lieutenants.

BERAR CHAMBER AND ASSEMBLY SEAT

No Official Candidate Put Up, Says Gen. Secretary

(From A Correspondent).
AKOLA, Jan. 15

The General Secretary Berar Chamber of Commerce, Akola, has issued the following:

There is no official candidate of the Berar Chamber of Commerce for Berar Commerce Constituency. I hear that the following candidates are going to contest the forthcoming election to the Provincial Assembly for the Berar Commerce seat. Messrs. Gopaldas Mohota of the Warnashram Swaraj Sangh Suganchand Tapadia, Congress candidate, Chothmal Mor, Independent. There is likely to be some confusion and misunderstanding as two prominent office-bearers of the Chamber are among the candidates. I, therefore, take this opportunity to make it clear that none of these candidates has been adopted so far by the Berar Chamber of Commerce nor does the Chamber lend its support to any candidate.

More Withdrawals In Favour Of Congress

Bitter Fight In Half A Dozen Constituencies In Bengal

CALCUTTA, Jan. 15.

That appeals by Pandit Jawaharlal Nehru, Congress President, and Mr. Sarat Chandra Bose, Acting President of the Bengal Provincial Congress Committee, to support none but Congress nominees for election to the Bengal Legislative Assembly is producing the desired effect on voters generally in this province, is evident from reports received to-day of further withdrawals from contest by non-Congress candidates in two more constituencies in East Bengal districts.

Rai Bahadur Sasadhar Ghose, who opposed the Congress nominee, Mr. Charu Chandra Roy, from West Mymensingh, General Constituency, and Mr. Bhagirath Das, Hindu Mahasabha nominee, against Mr. Harendra Nath Sur, the Congress nominee, from Noakhali Rural General Constituency, have both formally announced their withdrawals, thereby ensuring return of two more Congress candidates.

WHERE CONTEST IS KEEN

The Bengal Provincial Congress Parliamentary Committee are sanguine that several more withdrawals by non-Congress candidates will follow in the course of two days left for actual polling of votes. Although it is generally believed that, Congress candidates will come out successful in most cases, real public interest centres round the contest in about half a dozen constituencies, noted below:—

1. Dacca Landholders' Constituency where Maharaja Sir M. N. Roy Choudhry, President of the last Bengal Council, is being opposed by Maharaja Sasikanta Acharya Choudhury of Mymensingh.

2. Fatuakhali North (Rural) Mahomedan Constituency where Khwaja Sir Nazimuddin, Member of the Executive Council of Bengal Governor and a prominet member of Mr. Jinnah's Muslim League Parliamentary Board, is being opposed by Mr. A. K. Fazlul Huq, President of the All-Bengal Proja (Tenants) Party.

3. Burdwan Landholders' Constituency where Sir B. P. Singh Roy, Minister for Local Self-Government, is being opposed by Mr. S. C. Ghose Maulik, till recently Member of Council of State.

CASE FOR DISCIPLINARY ACTION

4. Dacca West (Rural) General Constituency where Mr. K. S. Roy, Secretary of the Bengal Provincial Congress Committee, is being opposed by Mr. Dhiresh Chaktavarty, Member of the All-India Congress Committee and Secretary of Congress Nationalist Party.

Mr. Chakravarty, who has been violating the pledge by opposing the Official Congress nominee, has been threatened with disciplinary action by the Congress President.

5. Presidency Division Municipal General Constituency where Dr. Nalinakshya Sanyal is being opposed by Mr. N. K. Basu, Opposition Leader of the last Bengal Council and President of the Civil Liberties Union, Bengal.—United Press.

ROMANCE OF GODREJ'S SAFE INDUSTRY

Safe-Deposits, Library Stacks And Hospital Furniture Manufacture

The name of Godrej is synonymous with the Safe Industry in India. It conjures up visions of safety and security. The history of this pioneer industry is tinged with romance. It is a record of hard struggle, patience and perseverance that won for its founder a lasting place in the industrial history of this country.

It was almost half a century ago that the late Mr. A. B. Godrej thought of making locks, safes and other articles of steel in India. He started in a very small way in the corner of a shed with the help of an unemployed "mistry". He made good locks, and the success encouraged him to undertake making of safes. Attaching the importance to quality that he did, he planned and arranged to make safes in India that would stand comparison with the best safes made in Europe. For this he visited Europe twice, studied the manufacturing methods there and brought the necessary suitable machinery. At first the struggle was hard. But the safes manufactured were good, and persistent efforts slowly and gradually won recognition. The safes were exhibited at numerous exhibitions and most convincing demonstrations of their ability to withstand damage by fire and breaking by burglars were given.

SEVERE FIRE TEST.

When the Indian Posts and Telegraphs Department decided to purchase a large number of fire-proof safes for the protection of their Savings Bank accounts with the idea of cutting out the heavy expenditure of maintaining them in duplicate in two different places, they subjected safes of several makes to a severe fire test in the presence of the Director-General of Posts and Telegraphs and other officers in Calcutta in 7812, and Godrej Safes were selected as the best. This brought Godrej first large order from the Government of India for 472 Safes; opened the way for Godrej Safes into all departments of the Government of India; and later secured for Godrej annual Rate Contracts for the exclusive supply of Safes to the Government which the Company holds even now.

Steel Cabinets and Almirahs were added later and proved to be as superior to other makes. Steel Shelving and Filing Cabinets came next, although the foreign competition in later days in these lines made it very hard. Large foreign manufacturers faced with contracting markets and shrinking sales resorted to price-cutting or dumping in India. But through sheer merit—high quality at moderate prices, Godrej has pushed on forward with the result that now Godrej can secure the biggest orders in India against keen competition from the largest foreign manufacturers of long standing with world-wide organisations.

RAPID EXPANSION.

Thus it now appears that the period of struggle is over for Godrej. The position of the Company is now so well established that Government offices, Indian States, largest business offices and biggest foreign concerns feel fully convinced of the ability of Godrej to manufacture the best quality goods at the most favourable prices, and with full confidence place their large orders with Godrej against competition from largest foreign manufacturers of long standing. It is a proof of this changed condition that large extensions have recently been made to Godrej Works that have almost doubled its production capacity: and the number of permanent workers has risen to over 1 000 and is going up fast. Some of the prominent new lines of production recently undertaken are given below.

SAFE-VAULTS

Previously all safe-vaults in India were built by foreign manufacturers which were little better than ordinary reinforced cement concrete structures and could be broken with the handiest of tools like chisels and hammers. Godrej experimented and devised patent methods for building Safe-Vaults fortified with channels of special metals which defy all methods of breaking—by cutting and breaking tools and the oxy-acetylene blow-pipe flame even, but do not cost much more to build than ordinary reinforced cement concrete structures. These impregnable Safe-Vaults are fitted with Godrej Vault Doors of exceptional strength, and the Patent Deposit Lockers also are of unbreakable type, so as to provide best and safest Safe-Deposits for the public. It is due to this extraordinary strength of Godrej Patent Safe-Vaults and Deposits Lockers coupled with moderate prices that all orders for Safe-Deposits in India are now placed with Godrej, and Safe-Deposit projects have become so attractive that enquiries are pouring in from all parts of the country and every important town is soon expected to have one or more Godrej Patent Safe-Deposits. Godrej Safe Deposits have already been erected in Bombay for the Bank of India; in Ahmedabad for the Bank of Baroda, in Madras for the Madras Safe Deposit Co. and the Indian Bank; and orders have been placed by the Calcutta Safe-Deposit Co., Ltd., for Calcutta; and by the National Safe-Deposit and Cold Storage Ltd., for Calcutta, Lahore, Cawnpore, Lucknow and Delhi; and quite a few more orders are soon expected.

MODERN LIBRARY STACKS:

With frequent requests from University and other Libraries manufacture of library stacks was only a step from steel shelving. Godrej applied their engineering skill and manufacturing resources to this problem and produced several types of library stacks that compare favourably with the latest types in America. The Osmania University is being fitted with four floors of modern bracket type stacks having instantaneously adjustable shelves, complete with electric book-lift, (this order was secured against keen competition from American and European manufacturers); and the Bikaner State Library is being fitted with several floors of slotted type stacks.

HOSPITAL STEEL FURNITURE:

Godrej have been equally successful with Hospital steel furniture of all varieties -bedsteads, bedside lockers and tables, surgical cabinets etc., etc. The Bikaner Durbar alone has purchased Godrej Hospital Furniture for the Bikaner State Hospitals amounting to nearly a lakh of rupees.

The latest addition to the Godrej line is office equipment—steel tables for executives and typists, chairs, etc., etc. These also are meeting with much approbation and success.

ANOTHER WAR WILL NOT DESTROY WORLD

But Bahais Look Forward To New Era

"Peace and Good will among nations" was the subject on which Mr. Siegfried Schopflocher, an American Bahaist, spoke in the C. J. Hall on Friday evening. Mr. Jamnadas M. Mehta, the Mayor, presided.

The lecturer said the nations of the word were arming themselves for a great war and if there was a nation which did not prepare for war, it was an exception. The last war cost to the belligerent nations 350 billion dollars, and untold miseries on account of the loss of the lives. Bread-winners from homes were cut off and those mutilated in the war were not able to earn a living. Yet preparations were made on a large scale for another great war. He thought that even if another war broke out, it would not destroy the world, but it would usher a new era of unity in the world which will embrace all nations. The founder Bahaism had predicted these happenings in the world and, therefore, Bahais were prepared for the events in store.

Their belief and creed, however, was love and brotherhood among all nations, without any distinction of colour, caste or creed and the adherents of Bahaism were looking forward to the New Era when those conditions would prevail.

SUIT ABOUT GILLETTE BLADES

Alleged Breach Of Patent

Mr Justice Rangnekar at the High Court heard the notice of motion taken out by Messrs. Gillette Industries Ltd, in connection with their suit against Messrs. Yeshvant Bros.

The notice of motion was for an interim injunction, pending the disposal of the suit, to restrain the defendants from importing or selling "Navy" or "Navy Blue" safety razor blades which, the plaintiffs alleged, were an imitation of the plaintiffs' "Gillette safety razor blades," and constituted a breach of their patent.

These allegations were denied by the defendants.

After some arguments his lordship directed that the defendants should keep an account of the blades imported and sold by them and fixed the hearing of the suit in June next.

G. K. U. LEADERS SUPPORT CONGRESS CANDIDATE

The Working Committee of the G. K. U. met to discuss and decide the attitude of the Union regarding the ensuing Assembly elections from E, F and G Wards and the suburbs.

Lively discussions took place in the meeting when the question of supporting the Congress candidates was put forth by Mr. G. R. Taldeokar. Mr A. A. Alwe, President of the Union told the meeting at the outset that the members were to consider the election question from all points of views as the Trade Union Congress candidate was contesting the seat in E and F Wards against Congress candidate.

Mr. Mohomed Umer refused to say anything about the attitude adopted by the Congress regarding the T. U. C. candidate, but he vehemently argued that the Union as a body must support the National Congress candidates in spite of the differences if any.

Support Congress

Mr. G. L. Kandalker, General Secretary of the G. K. U. explained why Nimbker was refused by the Congress. He said further that "After the nomination of Jinabhai Joshi, Dr. Gilder and P. Balu in E and F Wards, the T. U. C. has come forward with Mr. Joglekar's candidature and has thus made impossible for the National Congress to co-operate with the T.U.C. The Trade Union Congress has thus erred.

"We cannot therefore be the Party in creating fiasco in the ranks and files by opposing the Congress candidate," he said. "We have all along supported the National Congress and at such a critical time in the National struggle against the unwanted constitution, we shall be the last persons to oppose it.

Messrs. Mohomed Siddik and Pedhambker made stirring speeches in support of the Congress. They said that the G. K. U. must advise the workers to neglect Mr. Joglekar's candidature and support the Congress candidates whole-heartedly.

Messrs. Baburao Shinde and K. D. Madye also made speeches in support of the above.

Mr. Pedhambker and Dr. R. K. Gavande second Mr. Taldeoker's resolution of supporting the Congress candidates in E and F as well as in G and Sub-Wards.

JOIN HANDS WITH CONGRESS.

Dr. Gavande stressed the necessity of joining hands with the Congress in the election campaign and make every effort to get the Congress candidates returned in the next Assembly. The President, Mr. Alwe also supported the resolution in a fitting way and it was unanimously carried when put to vote.

A Sub-Committee of Messrs. Alwe, Kandalker, Dr. Gavande and Taldeoker was formed to look after the election propaganda in E, F and G and Sub-Wards. It was also resolved to convene a number of public meetings, issue handbills in support of the Congress candidates as also to appoint canvassers from chawl to chawl in Labour area.

The meeting terminated at 10-30 p.m. after two hours' lively discussions.

FILM FARE FOR THE WEEK

"DODSWORTH"—A SINCLAIR LEWIS FILM

At The Empire

As a novel, Sinclair Lewis' "Dodsworth" was a best-seller. Adapted to the stage by Sidney Howard, with Walter Huston in the title role, it was a smash hit and ran almost two years on Broadway Now translated into celluloid by the same writer, with Huston again playing Sam Dodsworth and given a magnificient production by Samuel Goldwyn, "Dodsworth" has found its ideal form. Combining all the best features of the book and the play, and adding several of its own. "Dodsworth" emerges on the screen of the Empire Theatre to-night as the finest piece of entertainment we have seen in many seasons.

Brilliantly acted by a perfect cast, headed by Huston, Ruth Chatterton, Paul Lukas, Mary Astor and David Niven this absorbing film tells the story of Sam Dodsworth, a hard-working, successful middle-Western business man who retires to travel:

FRAN SEEKS ROMANCE

Sam looks to Europe as a place to rest and dabble in culture. but to his pretty, selfish and adored wife Fran, (Ruth Chatterton), it means one last fling at romance before facing middle age.

Dodsworth sail on the maiden voyage of the "Queen Mary" and Fran finds romance almost at once with a handsome young Englishman, Major Lockert (Niven). The flirtation ends badly, however, when she discovers he is serious.

In Paris, Fran deserts poor Dodsworth for the more glamorous company of the questionable Mme. de Penable (Odette Mytil), and her friends the worldly Arnold Iselin (Lukas) and the handsome young Kurt Von Obersdorf, an impoverished Austrian aristocrat, (Gregory Gaye).

AND DODSWORTH LOVE

When she gets involved with Iselin, Dodsworth forgives her. But she cannot resist the flattering implications of a proposal of marriage from young Kurt and promptly begins divorce proceedings. Dodsworth finds sympathy and real love with the charming Edith Cortright (Mary Astor). But when Kurt's mother, the proud, old Baroness (Mme. Maria Ouspenskaya) wrecks son's wedding plans, Fran frantically wig wags for good old Dodsworth and he gives up his happiness to go to her. But the contrast with Edith is too striking. He sees Fran at last for what she is and returns to the woman he loves.

"Dodsworth" has been brilliantly directed by William Wyler and Richard Day's magnificent sets and Omar Kiam's breath-takingly lovely costumes are in keeping with the smart lavish tone of the production. "Dodsworth" should top your "must see" list. The film is released through United Artists.

"CALLING THE TUNE"

At The Excelsior

Phoenix Films, who made "Murder at Broadcasting House" and "Secret Passenger," will, in "Calling the Tune" now at the Excelsior sustain the favourable impressions created by those two films. Produced by Hugh Perceval and directed by Reginald Denham, it has an original theme, distinctively handled, and possesses many aspects of popular appeal. It is an admittedly fictitious story of the development of the gramophone science and industry—a field that has not been widely exploited as a subject for fiction drama, and therefore possesses considerable interest values as well, as affording opportunities for performances by notable popular favourites, of whom the Queen's Hall Orchestra, under Sir Henry Wood, and Mr. George Robey are outstanding examples. Sir Cedric Hardwicke also appears. Many effective touches in the direction, and a story that has a mild romantic interest and a quite strong melodramatic one should serve to commend this picture to all audiences.

Beginning in the early days of the industry, it shows us how Bob Gordon, an unscrupulous business man, gains control of a formula for the making of permanent hard records. Years later, he appears as head of a hugh gramophone concern, with his crooked associate of the past, Finlay, still with him; while also in the firm is Peter Mallory, son of Gordon's early victim. Peter and Gordon's daughter, Margaret, are in love, but trouble starts with Peter's purely artistic interest in a singer, Julia, daughter of one Harbord, another of Gordon's early victims. This causes a breach between Peter and Marjorie, whom Finlay also wants to marry. Peter and Harbord join forces with great success, and Finlay tries to ruin them by organising explosions at their factory. At a second attempt he does cause one—when the Queen's Hall Orchestra is recording—but, being locked in by Marjorie, is himself fatally injured. His confession incriminating Gordon is permanently recorded by a "visual gramophone," an invention of Harbord's; and the film ends with a reconciliation between Peter and Marjorie.

"UNDER TWO FLAGS"

Spectacular Desert Film At Plaza

The 20th Century-Fox production "Under Two Flags" has proved immensely popular with Bombay audiences, and those who have not yet seen this splendid adaptation Quida's novel are urged to do so this week at the Plaza (Tilak Bridge, Dadar) Ronald Colman once more dons the uniform of a Legionnaire, and in the role of Sergeant Victor he eclipses even his famous role in "Beau Geste"! His delightful restraint and charm of personality invests the character with great power. Claudette Colbert makes a vivid and fiery Cigarette, Victor McLaglen is excellent as the jealous Major Doyle, and Rosalind Russel's portrayal of the dignified yet passionate Lady Venetia is the best thing she has yet done on the screen.

Prominent in the supporting cast are Gregory Ratoff, Herbert Mundin, Nigel Bruce, Onslow Stevens and J. Edward Bromberg, and Frank Lloyd's direction is masterly. The desert scenes and magnificently staged Arab battles are lavishly spectacular, and the film as a whole is a blend of stirring heroism, tender romance and natural comedy.

"Under Two Flags" is one of those action pictures that make really excellent entertainment. Don't miss it.

"Two In The Dark" at Pathe this week.

'SING BABY SING' MELODY, MIRTH AND ROMANCE

At The Capitol

Whooping with laughs, tingling with tunes, sizzling with swing and ablaze with names, "Sing, Baby, Sing," opens to-day at the Capitol Theatre and will reveal itself as a mad Jamboree of fun-makers, stars and stooges, songsters and show-stoppers, that is one of the most hilarious triumps ever brought to the screen. Featuring an astonishing number of Hollywood's most famous comedians, a wildly riotous story and a veritable hit parade of songs, the makers of "Thanks a Million" Twentieth Century-Fox, have topped their previous triumph in a million ways. With Alice Faye, Adolphe Menjou, Gregory Ratoff, Ted Healy, Patsy Kelly, Michael Whalen and a trio of very welcome screen newcomers, the Rit Brothers, "Sing Baby Sing" starts off in a gale of laughter that increases steadily until it is a raging tornado of mirth at the rib-racking climax. Alice Faye is given her notice at a night club in which she has been singing. She goes to see her agent, Gregory Ratoff, to get another booking, and finds that Ratoff is about to lose his office for neglecting to pay the rent. During Alice's last evening at the cafe, Ratoff notices the celebrated Adolphe Menjou in the audience. Menjou has come East for a rest and to get and remain as pie-eyed as possible. As Alice is singing her last song Menjou rises up on his chair and begins to do "Romeo and Juliet" with her. Ratoff, quick to sense to possibilities, makes a connection with Menjou who is too tight to know what he is doing. Menjou is carried from the night club and rushed to a hospital for alcoholics. Ratoff gains entrance to his room by passing Ted Healy off as Menjou's personal physician. Menjou is ready to promise anything for a drink, and they get him a bottle of bay rum, telling him that it is South American Brandy. Menjou develops a terrific thirst for this new beverage, and as Ratoff and Healy are the only ones who are able to get it, he sticks to them closely. Ratoff gets Alice a contract with a radio chain—on the provision that Menjou also appear on the opening programme. However, Menjou's manager arrives from Hollywood, kidnaps the errant celebrity, and is about to whisk him back to the movie capitol when Healy and Patsy Kelly come to the rescue. With the laughs literally tripping over each other, the action becomes more and more wildly hilarious, Climaxing in one of the most riotous scenes that ever rocked a movie audience.

Four new songs, "Love Will Tell," "Sing, Baby, Sing," "You turn'd the Tables on Me," and "When Did You Leave Heaven?" provide musical interludes for the never-ending laughs.

Darryl F. Zanuck selected Sidney Lanfield as director and B. G. De Sylva associate producer.

"Ramona" at the Regal this week.

"Sing, Baby, Sing", at the Capitol.

LORETTA YOUNG AND DON AMECHE SCORE IN "RAMONA"

At The Regal

In the presentation of 'Ramona," opening to-day at the Regal, 20th Century-Fox has added another great triumph to its already imposing roster of cinemas success. Flashing action on a far-flung scale combined with its prodution in the new perfected Technicolour, make "Ramona" one of the most important pictures of the year. an exciting picturization of Helen Hunt Jackson's immortal love story. Loretta Young is featured as Ramona, with Don Ameche as Alessandro, and the splendid supporting cast includes such players as Kent Taylor, Paule Frederick, Jane Darwell, Katherine De Mille and John Carradine. In addition, hundreds of persons were recruited from the Mesa Grande district representing settlers and local characters. The Technicolour tremendously effective because it is absolutely, indisputably true to life. Since a large part of the picture called for out-of-door scenes, the main location for the filming of "Ramona" was a 550,000-acre ranch in the Mes Grande Area of the beautiful San Jacinto Mountains in California, 140 miles south-east of Los Angeles, where the natural beauty of the region made a perfect setting. The site is almost endless succession of green expanses rolling toward the dusty purple of the far off mountains, with every shade and tint cleanly defined in the clear dry air of this happily selected district. The settings are on actual scenes of the spots where the real Ramona and Alesando lived and loved many years ago in Old California. "Ramona" is a picture that fairly teems with high romance—fiestas, fandangos, songs, roses, secret, trysts, mission bells, stolen kisses, tears, love and laughter. It is one of the greatest love stories ever unfolded on the screen. All the rainbow beauty of adventure-crowded California of the early, days has been recaptured and again as of old, Ramona goes to meet love in the purple dusk. Loretta Young is superb in the title role, playing the part with deep feeling and understanding. Her highly artistic performance should further her career tremendously. As Ramona, Miss Young will undoubtedly win a host of new admirers. Don Ameche is the perfect Alessandro. He has turned in an excellent performance in a most exacting part, that of Ramona's great love. This young Radio favourite is bound to win a coveted place for himself in the world of filmdom. Kent Taylor is a splendid Felipe, the son of the patrician Moreno family, and Pauline Frederick is excellent in the role of his mother, the stern Senora Moreno. Jane Darwell as Anti Ri Hyar, the kindly Tennesse homesteader Katherine De Mille as the Indian servant girl, and John Carradine as Jim Farrar, have all done fine jobs on their various assignments.

The skilful direction of Henry King and the remarkable Technicolour photography of William Skall make "Ramona" a masterpiece, a personal triumph for Darryl F. Zanuck, Twentieth Century-Fox production chief, and executive Producer Sol M. Wurtzel.

"TWO IN THE DARK"

At Pathe

Breath-taking suspense, throbbing romance and accelerating action are artistically woven into RKO Radio's thrilling murder mystery, "Two in the Dark," showing this week at the Pathe Theatre.

This pulsating drama, based on an original story by that noted author Gelett Burgess, is apt to have the most astute detective pulling his hair and biting his finger nails in an effort to solve the baffling crime.

Not only is there the mystery of the crime, but a shroud surrounds the identity of a strange man who has lost his memory, played by Walter Abel, who is suspected of having committed the murder.

Trying to aid the victim of amnesia is a destitute show girl (Margot Grahame) who, while seeing him drawn slowly into the mystifying vortex of clues, feels herself being engulfed by an apparently hopeless love.

She begs him to flee. He refuses although pitifully handicapped by the loss of memory. Each clue he follows brings him closer to the murder. He finally learns his identity, but in so learning it he also discovers that he has a motive for the crime.

Miss Grahame and Abel head a first-rate cast. Abel does a splendid job of portraying the mentally sick victim who is justifiably suspected of a heinous crime, while Miss Grahame gives a highly commendable performance as the frightened show girl who sees the man she loves become entangled in a net of damaging circumstances.

Alan Hale stands out in his role of police inspector, and Wallace Ford, who as a newspaper reporter tries to aid Hale in solving the crime, registers a convincing performance. Gail Patrick and Erin O'Brien Moore are alluring women of mystery. Eric Blore turns in an arresting performance as a harassed and frightened butler who is suspected of having killed his employer, and Erik Rhodes furnishes comedy relief as a hysterical foreign violinist. Leslie Fenton has an important role.

Settings, photography and dialogue in "Two in the Dark" are of the highest standard. Zion Myers is credited with producing the play, and directorial honours go to Ben Stoloff.

Adele Doon in "Calling Thee Time" at the Excelsior.

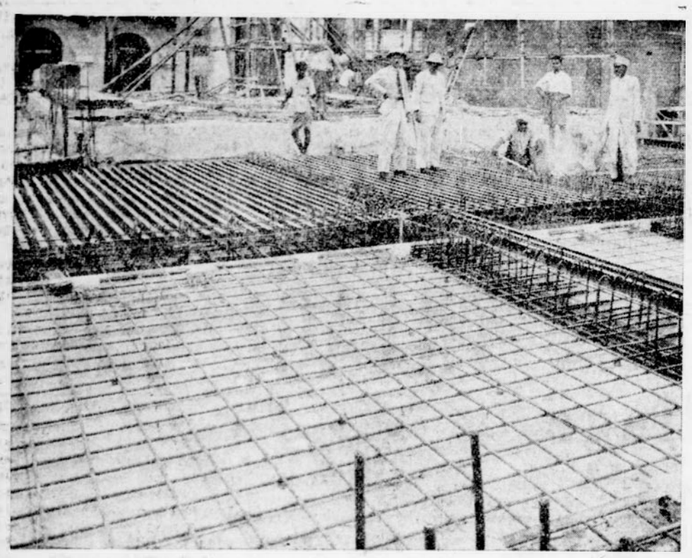
defy all modes of breaking by skilled burglars — cutting tools, sledge hammers and the Oxy-Acetylene blow-pipe flame even, and provide best protection.

GODREJ'S UNBREAKABLE PATENT REINFORCEMENT

All the six sides of a Vault—**4 walls, roof and floor, are fortified with Godrej Patent** Drill. Hammer and Oxy-Acetylene Flame Proof **unbreakable Channels of special metals** which are welded to cross channels at both ends—to make impregnable walls, floor and roof, as shown in the picture below

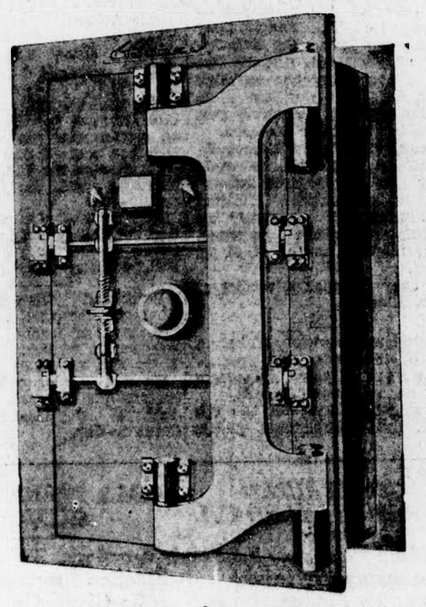


Fortifying the roof of the Safe-Vault with Godrej special channels in Oriental Life Assurance Co.'s New Building at Madras by courtesy of Mr. Chitale, Architect to the Oriental Life Assurance Co.

LOW COST—Though impregnable Godrej Patent Safe-Vaults do not cost much more than the weak reinforced structures which can be broken with the handiest tools like chisels and hammers, especially during times of riots and disorders—the very times when the protection of Safe-Vaults is needed most.

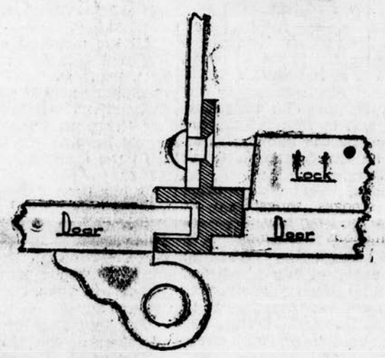
MAIN VAULT DOOR

Fire & Burglar-Proof Compression-Hanging-Hinge **MAIN VAULT-DOOR** made of Drill, Hammer and Oxy-Acetylene Flame Proof Plates and secured with best Key Locks and Keyless Combination Locks, safeguards the entrance to our impregnable Safe-Vaults.



DEPOSIT LOCKERS

Our Patent DEPOSIT LOCKERS for the Safe-Deposits, are equally strong. Their Doors of Patent design (Patent No. 22406) are so constructed that they cannot be hammered in or wedged out.



Godrej Renter's Own Lock

which is supplied direct to the Renter and can be easily fitted by him, gives the renter complete control over his locker.

TESTS

to which Godrej Patent Channels of special metals for Safe-Vault reinforcement have been subjected——

One of our heavy-duty type pneumatic chipping hammers after twenty-five minutes working failed to cut through the channel.

The section was next placed under one of our high speed drills and an attempt made to drill through it with a 13|16" diameter drill, this however, failed to penetrate more than 3|16".

P. GOFFEY, Manager,
BRAITHWAITE & CO. (India), Ltd.

We used an Oxy-Acetylene blow-pipe for this test, and found that after penetrating the special steel cover, it was not possible to penetrate to the channel itself. We can say with confidence that the assembly we tested is practically proof against cutting by the Oxy-Acetylene flame.

DAMAGES CLAIMED FROM B. B. AND C. I.

Woman Passenger Sues Company For Injury To Finger

The suit filed by Mrs. Josephine Yule, claiming Rs. 10,000 as damages from the B. B. and C. I. Railway came on for hearing before Mr. Justice Engineer on Thursday. The claim was in respect of injuries received by the plaintiff while travelling on the defendant Company's railway.

The plaintiff was a First Class passenger travelling from Delhi to Bombay on April 29, 1932 and during the journey, it was alleged, a window dropped down, crushing the little finger of her left-hand. After reaching Bombay, she boarded the steamer s.s. "Strathaird" to proceeded to England. During the voyage, she had to undergo medical treatment and a nurse was engaged to attend on her. In England, an operation was performed on her and she was confined to bed for a considerable period.

The plaintiff stated that as a result of the accident she was subjected to unbearable physical pain and mental agony, and had to undergo considerable expense for medical treatment. Moreover, her hand was permanently disfigured, because as a result of the operation her finger had become shorter. The plaintiff alleged that the injuries sustained by her were due to the negligence of the defendant company which had failed to take the necessary precautions for the safety and comforts of the passengers travelling on its trains.

The claim was contested by the defendants who denied the allegations of negligence.

The case is proceeding.

Child Refused to Swallow Medicine For Her Colds

Bombay Father Discovers New External Remedy Is Quicker and Pleasanter

"My daughter was suffering from a severe cold, but would not swallow medicine, she hates it so. I didn't know *what* to do. Finally I tried Vicks VapoRub. It worked wonders." Mr. S. J. F., Bombay.

An Ointment that You Just Rub On

You no longer need to force a child to swallow medicine for a cold, and risk upsetting his stomach just when he needs all his strength. For *now* you can end colds safely and much more quickly with Vicks VapoRub—the *external* treatment that 26 million mothers use each year for children's colds.

Acts Instantly—Two Ways at Once

All you do is rub VapoRub on the little throat and chest at bedtime. Almost before you finish rubbing, VapoRub starts to fight the cold *in two direct ways at once:*

1. **Through the Skin.** There is a comfortable tingle on the little one's chest as VapoRub begins to act direct through the skin like a poultice.

2. **Medicated Vapours.** At the same time, warmed by the body, VapoRub releases medicated vapours which are breathed in for hours, *18 times a minute*, direct to the irritated air-passages of the nose, throat, and chest.

This combined poultice and vapour action makes the child feel better right away as it starts to soothe irritation, loosen phlegm, and break up congestion. With the breathing easier, the little patient soon drops off to restful sleep. And while he sleeps, VapoRub goes on working hour after hour. By morning, almost always, the worst of the cold is over. Even grown-ups' colds yield quickly to VapoRub's powerful double action.

WORLD OF SPORT: HOME AND ABROAD

B. A. A. C's Successful Athletic Meet

(BY "LOOKER ON")

The athletic meeting organised by the Bombay Amateur Athletic Club of Dadar came to a successful termination on Saturday last. All the events on the card were well-contested by a fairly large field and they were enthusiastically supported by a good number of spectators. This goes to show that athletic sports are increasing in popularity both among sportsmen and spectators—a very good sign indeed. I believe that the crowd would have been much larger had the meeting been held on Sunday instead of the day previous, because the Races at Mahalaxmi attracted away quite a large number of fans. This is a point I expect the B.A.A.C. to take note of for future guidance, as it is sure to draw a larger number of spectators.

A DEPLORABLE INCIDENT

There was one incident in the meeting which deserves special mention. It was in the Cycle Race for men. I feel really ashamed at the way some of the competitors behaved at the time of the heats. One of them, actually went to the length of abusing the officials and the Committee, I am told. As the case against this individual is still 'sub-judice', I withhold making further comments on it at this stage. The public should, however, know how the trouble arose. It is a matter of common knowledge that during recent Cycle Races some of the leading competitors took things quite easy, knowing full well that they could win and place as they liked. They never tried to do their best, so that the competitions became a sort of farce.

A CONTRAST

The organisers of the B.A.A.C. Sports made up their minds to put a stop to this. So they asked the competitors to race within a certain time-limit. All of them accepted the condition before they took the field. Three heats were run. The first batch came within the specified time. But the second and third failed, in consequence of which they were disqualified. The judges were perfectly justified in their action. It is said that the disgruntled lot then created a scene. And on the final day, the two competitors who had qualified for the finals refused to start on the given condition. The authorities had therefore no other alternative than to scratch the event. In this connection I would commend them the excellent example set up by the women competitors. They not only accepted the time-limit but finished their race in fine style.

PERRY BEATS VINES

Professionalism in Lawn Tennis has gained a fresh accession of strength by the entry of F. J. Perry, the world champion for the last three years, in to their fold. It was clearly evidenced in the three matches he had with an ex-Sovereign of Wimbledon and Forest Hills in H. Ellesworth Vines during the past week. Large crowds attended these fights, the second of which recorded 3,000 in the stands—a record for professional tennis! This shows that the lovers of Tennis do not care a jot whether the contestants are professionals or amateurs. All that they want is a first rate tennis and a thrilling battle. Despite the fact that Vines was suffering from an attack of influenza he gave a splendid account of himself. In the second, he had almost turned the tables on Perry. It was the superior stamina and physical fitness of the British Ace which saw him through all the three matches to victory. I do not know—nor can I divine—the reason why they were in such a great hurry to play thrice within one week when one of the combatants was out of condition. I have little doubt that Vines who is claimed by 'Bill' Tilden as the best player in the world, would avenge his defeats ere long.

THE AUSTRALIAN TEST

The third Test match between England and Australia is now over. In the first two Tests, England had all the luck which helped them to secure a lead of two matches to nil against Australia. The third was therefore a very critical one for the 'kangaroos'. Had they lost it, they would have lost the Ashes also. But the Goddess of Fortune, whimsical as she is, turned her back on England at Melbourne and smiled on the Australians. Don Bradman the Australian Skipper who had lost the toss on both the previous occasions, won it this time. There is no doubt that it went a long way in seeing Australia to victory. Rain which had upset all calculations in the previous engagements did the same trick again. The Australians surrendered four of their best wickets including the Don for a paltry 79 and it looked as if the rubber had slipped out of their hands. McCabe though indisposed played a gallant innings for 69 and helped to raise the total to 181 for 6 wickets at the end of the first day.

CLEVER TACTICS

The second was a day of washouts. The Australians having lost three more wickets for an addition of 19 runs only applied closure. Allen was then faced with the same debacle which had non-plussed Bradman in the first two Tests. England lost nine wickets for 76. Sievers capturing 5 for 21 and O'Reilly 3 for 28. Hoping to turn the tables on Bradman, Allen declared at this stage, being 124 runs behind the Australian total. Not to be outdone in the matter of tactics, the Don reversed his batting order and began from the tail. When the first wicket was down for 3, rain intervened again and the match had to be stopped for the day. Isn't it funny that one of Bori Bunder's special correspondents called this appeal for adjournment unsporting, while the other blamed the clerk of the weather?

A GREAT PARTNERSHIP

When the game was resumed on Monday things had completely changed in favour of the Australians. Fingleton and Bradman gained complete mastery over the tourists attack and slashed them for all their worth. They put up the record score of 346 runs for the sixth wicket in Australia. Fingleton was at the wickets for 386 minutes to score 136, 24 only of which was obtained through boundary hits. It was undoubtedly a tremendous feat of patience which paid the Australians very handsomely. It also enabled the Great Don to come into his own. Though suffering from slight influenza, he batted in his magnificent style and amassed the splendid figure of 270 runs in a period of 458 minutes. The Australians were all out for 564 runs.

WHAT NEXT?

With 638 runs in deficit, it was almost impossible for England to avert a heavy defeat. Hammond (51), and Leyland (111 not out) and later Robins (61) fought bravely but they failed to pull the match out of the fire. England was dismissed for 323 runs, being defeated by the robust margin of 365 runs. The bowling honours was claimed by Fleetwood-Smith who captured 5 wickets for 124 runs.

The next battle will be fought at Adelaide commencing from January 29. The Australian cricket having resuscitated itself, the fight is sure to be a very keen one unless of course rain interferes again and decides the issue as it likes. It is reported that during the last match cricket lovers in Australia were roused to their highest pitch of enthusiasm which was evidenced by the record attendance of 87,798 and receipts of £7,405, both world records. I wish we could see half as much in both in the Test match in India!

Suffered With Sciatica For 25 Years

WIDOW RECOVERS HEALTH WITH DAILY DOSE OF KRUSCHEN

When your joints start to creak and crack, it is a sure sign that your system is producing too much harmful uric acid. If you fail to heed the warning, you are storing up trouble for yourself. Read this letter, from one who suffered for years before she found out how to obtain relief:—

"For 25 years I suffered from sciatica in my right side, and I had backaches which forced me to remain in bed for two or three weeks at a time. When I got up in the mornings, my arms and legs used to crack as though I were breaking dry wood. One day, I heard of Kruschen Salts. I took a bottle of them without feeling much improvement, I tried a second bottle, and that time I felt better. I have kept on taking Kruschen ever since. I am a widow, and at 60 years of age I take in washing every day, without feeling any pains."—(Mrs.) H. L.

The pains of sciatica and lumbago are caused by an excess of uric acid in the body. Two of the ingredients of Kruschen Salts have the power of dissolving uric acid crystals. Other ingredients of these salts assist Nature to expel these dissolved crystals through the natural channels.

Kruschen Salts is obtainable at all Chemists, Stores and Bazars.

NAWANAGAR MEET WITH INITIAL DISASTER

But Colah Stops Rot By Piling Up 83 Runs: Team Score 192 For 9 Against W. I States

(From Our Correspondent.)
POONA CITY, January 15.

Navanagar meeting Western India States in the Ranji Trophy Tournaments, Western Zone finals on the Deccan Gymkhana grounds to-day, won the toss and electing to bat, met with early disaster when they lost Vinoo Mankad and Abdul Aziz the opening pair for only two runs. Saeed Ahmad claimed both wickets, clean-bowled Abdul Aziz (1—1—0) while Shantilal held Mankad (2—2—1). Colah the third man also would have been no more had he not got at 3 two successive lives by Faiz Ahmed and Abdul Khaliqa off Saeed Ahmed. Colah avenged this by adding no less than 83 runs before the next wicket was down, Manilal being run out in a hurry to run third after getting two off Shantilal (85—3—26).

Joining scarcely ten minutes after the play had begun the pair was unseparated for about 2 1/2 hours, after lunch when Navanagar was 56 for 2.

Yadvendrasing the next man was required to requisite Marshall's services unluckily losing Colah, Shantilal accepting him on his own immediately after (86—4—57). Marshall in his turn, however could not long retain Yadvendrasingh, Akbarkhan succeeding in an l.b.w. appeal against him before he cracked the duck (90—5—0). Amarsingh the giant figure was also next dismissed by Akbarkhan by another l.b.w. appeal (96—6—3).

Wensley joined Marshall and telegraphed hundred of the team. Narsing Kesari next held Wensley off his own (112—7—9) who made place for Indravijaysing.

The score at tea stood at 150 for 7 with Marshall and Indravijayasingh 41 and 7 (not outs) respectively.

Resuming after tea Navanagar lost Marshal who was held by Shantilal off Akbarkhan (159—8—47). Ranbirsing assisted Indravijaysing to take score past 180 when he was caught and bowled by Shantilal (184—9—2).

At the end of the day's play Navanagar was 192 for 9 (not outs) being Indravijayasing and Mubarak being 36 and 2 respectively with extras 9.

RESTRICTED BUSINESS IN STOCK EXCHANGE

Speculative Favourites Irregular

(SPECIAL CABLE)
LONDON, January 15

Stock Exchange: Preliminary carry-over arrangements restricted business causing considerable irregularity particularly in recent speculative favourites otherwise markets were rather quiet and uninteresting but internationals were firm with Wall Street.

In commodities copper and lead spelter were easier on large profit taking. Rubber was firmer in sympathy with improved United States labour and then easier. Cocoa was firm and then weak in sympathy with New York.

Wall Street was firm and then irregularly easier.

WEEKLY MARKET REVIEWS

(From Our Special Correspondent)
BOMBAY, Jan 15.

MONEY

Money was easy during the early part of the week, and call rate was quoted at about 1 per cent. Towards the close, however, day-to-day loans were quoted at 1 1/2 per cent, probably owing to the demand in connection with the monthly Stock Exchange Settlement requirements. The rate again declined to 1 per cent at the close. The return on this week's three months Treasury Bills was slightly down by .021 per cent as compared with last week. Total tenders amounted to Rs. 2.64 crores, of which Rs. 2 crores were accepted at an average rate of Rs. 1-2-7 per cent. The amount of weekly tenders has been reduced to Rs. 1 crore with effect from January 19, 1937, which is probably due to the influx of revenue which usually comes at a quicker pace during the last quarter of the financial year. Maturities were offset by renewals of Rs. 2 crores. Government borrowed Rs. 3 crores from the Reserve Bank of India against Ways and Means Advances, during the week ending 8-1-1937. Fixed deposit rates were: 1 1/4 per cent for three months and 1 1/2 for six months.

EXCHANGE

The increase of sterling tenders from £1 million to £2 million made sterling exchange a shade quieter, and there were occasional buyers of ready T. T. at 1s. 6-9/64d. Continued good demand for money and a fair showing of merchandise export bills kept nearer deliveries steady, there being sellers of ready T. T. at 1s. 6-1/8d. and no buyers at better than 1s. 6-9/64d

Government were able to obtain £2,202,000 at 1s. 6-5/32d. on tap during the week ended January 8, 1937. This indicates the tension that existed in the market before Government took the welcome step of easing it by increasing the tender amount to £2 million. Sterling tenders to Government amounted to £30,950,000 at 1s. 6-1/8d., of which approximately 6 per cent were alloted.

The foreign exchange market in London was featureless. The sterling/dollar cross rate after moving between dol.4.91-5/16 and dol4.90 15/16, closed at dol.4.91-1/16. The London/Paris rate moved narrowly between frs. 105.15 and frs. 105.13. The belga and the guilder closed at 8.96 3/4 and 29.11 respectively. The Italian lira fluctuated between 93.34 and 93.25. Among the Eastern Exchange, Shanghai dollar was steady at 1s. 2-17/32d, and with the imposition of licensing of exchange in Japan the yen rate recovered sharply from 1s. 1-13/16d to 1s. 2d.

GOLD

Fluctuation in the price of ready gold were very narrow and confined to a range of 9 pies. The volume of business for export was smaller than last week. A large shipment amounting to Rs. 106.29 lakhs by s.s. "Comorin" last week considerably reduced the stocks to about 50,000 tolas. The backwardation has consequently reappeared and March settlement is quoted at 3 pies under February. Daily arrivals averaged about 12,000 tolas. The offtake averages about 2,000 tolas a day. The quotation for ready after moving between Rs. 35-0-9 and Rs. 35, closed at Rs. 35-0-9. Including last week's shopment the total amount of gold exported for the current year amounted to Rs. 112.50 lakhs and Rs. 291.61 crores since September 1931. In London the price of gold moved within a narrow range of 1d, and closed at 141s. 8d. The highest and lowest rates in the local market were Rs. 35-0-9 and Rs. 35 for ready and January 29, settlement and Rs. 35-0-6 and Rs. 34-15-9 for March 5, settlement. The price of spot sovereigns closed at Rs. 22-5. Total imports during the week amounted to Rs. 56,146 in bar and coin.

SILVER

Silver opened quietly steady, but towards the close of the market sagged sharply on generous which was influenced by reports that some American Treasury officials were getting tired of the silver purchase programme. Reports were also current in the local market that the American Government was not inclined to continue buying Mexican mined silver. Advices from London were weaker owing to the absence of Indian buying and the lack of other support. At the decline some support was in evidence in this market. The backwardation in March settlement was narrower at about 7 annas under February while in London spot commanded a premium of 1/8d. The quotation for ready opened at Rs. 52-6 and after advancing to Rs. 52-9 early in the week, declined sharply to Rs. 50-11 on Wednesday last. The rate, however, improved to Rs. 51-7 on bear covering at the close.

Silver to the amount of £802,700 is en route to Bombay. Stocks on hand are estimated at about 26,000 bars, while the offtake averages about 180 bars a day. This includes a settlement offtake of about 1,000 bars. The highest and lowest rates in London were 21-1/4d and 20-5/8d for spot and 21-1/8d and 20-1/2d for two months forward; and those in our market were Rs. 52-9 and Rs. 50-11 for ready, Rs. 52-10 and Rs. 50-12 for January 31, settlement and Rs. 52-1 and Rs. 50-4 for March 8, settlement. Total imports during the week amounted to about 1,222 bars and Rs. 18,537 in coin.

GILT-EDGED.

The gilt-edged market was dull and easier with investors holding aloof on account of continued political disturbances in Europe. 3½ per cent. India Sterling Stocks were easier and the quotation declined from £98-1/4 to £97-7/8. The local market moved sympathetically, and there was a proportionate drop in the quotations. 3½ per cent Rupee Paper declined from Rs. 99-10 to Rs. 99-3. 2-3/4 per cent. 1948-52 new loan closed at Rs. 100-6 as against Rs. 101 last week; 3 per cent. 1941 at Rs. 104-4 as against Rs. 104-13; 3 per cent. 1951-54 loan at Rs. 102-8 as against Rs. 103-3 and 3½ per cent. 1947-50 loan at Rs. 106-9 against last week's Rs. 107. 4 per cent. 1943 bonds lost about half a point; 4 per cent. 1960-70 loan a little over 1 point and 4½ per cent 1055-60 loan about half a point. 5 per cent. 1939-44 loan was on offer at Rs. 119-8 and 5 per cent. 1940-43 loan at Rs. 111-4. 5 per cent 1945-55 (tax free) loan declined from Rs. 120-14 to Rs. 120-1 and 5 per cent 1938-40 loan eased off to Rs. 106-12.

SHARES

The hectic conditions that prevailed on the Stock Exchange last week continued during the period under report, and prices advanced in almost all sections on further bull support and bear covering. Steel prices are reported to have advanced further both locally and in the world markets, and according to "Reuter's", that important price barometer, heavy steel scrap was sold at Pittsburg on the 13th instant at 20 dollars per ton which is the highest for eleven years. This report infused enthusiasm among the operators, and the price of Tata Ordys. which had dropped to Rs. 272 early in the week recovered and closed at Rs. 292. Likewise Tata Defds. which had declined to Rs. 1050 spurted to Rs. 1141-4. Cotton mill shares were very popular and found many buyers on reports that the Japanese Yarn Market had suspended trading. Bombay Dyeings gained about 40 points; Centurys about 8 points; Central Indias about 20 points and Kohinoors about 20 points. The hydro-electric group on the other hand were neglected and were slightly easier. Tata Powers closed at Rs. 1612-8; Andhra Valleys at Rs. 1730 and Tata Hydros at Rs 191-14. Bank shares were almost unchanged with the exception of Reserve Banks which declined on selling pressure to Rs. 137-8. Cement shares were firm in sympathy with the general tone of the market. Bundis advanced from Rs. 40-8 to Rs. 42; Indian Cements from Rs. 542-8 to Rs. 558-12; Katni Ordys. from Rs. 393-12 to Rs. 401-4 and Shahabads from Rs. 507-8 to Rs. 522-8. Bombay Burmas were very prominent and there was vigorous buying in this scrip towards the close, causing an advance of nearly 50 points from the previous closing rate. Scindia Steams were easier on profit-taking, and the quotation after touching Rs. 23-1 in midweek, closed at Rs. 22-4. The undertone of the market is steady although profit-taking is not unlikely at higher levels.

RESERVE BANK STATEMENT.

The Reserve Bank of India statement for the week ended January 8, 1937, shows a decline of Rs. 4.91 lakhs in the total notes issued against a decrease of

Extensive Switching Of March To Distant Months

UNCERTAINTY OVER LOAN SALE

Absence Of New Buying

BOMBAY: January 15.

The New York Cotton Futures Market was quiet but steady with a marked absence of any new buying. Prices fluctuated within a narrow range.

There was extensive switching of March to distant months including new crop.

The New York cotton futures market opened steady on Thursday with early foreign buying influenced by higher Liverpool cables and large domestic consumption meeting with renewed liquidation and especially in March. Extensive switching of March to distant including new crop was the chief feature of the cotton market which was still dominated largely by the uncertainty over the loan cotton sale with very little new buying appearing.

Trade demand was for March and there was one notice for January.

March option was quoted 2 points down at the opening at 12.44 but soon improved 4 points to 12.48 which was the highest level for the day. Later on prices declined 8 points and long liquidation and March was quoted 12.40 which was the lowest level. Some trade buying in March improved the market and at the close near months were 5 points down and distants were unchanged.

Spot cotton prices were reduced 5 points at 13.01c. per lb.

NEW ORLEANS MARKET.

The New Orleans cotton futures market was irregular with a limited enquiry and closed at a rise of 2 points to a decline of 3 points. Spot cotton prices declined 4 points at 12.96c. per lb.

LIVERPOOL MARKET.

The Liverpool cotton futures market opened steady with prices unchanged. There was hedging which met trade calling and buying by local importers and Bombay buying. Later on prices improved on bullish consumption figures but reacted on hedge selling and straddle selling. The market closed at a rise of one to 2 points. Middling American spot cotton prices declined one point at 7.20d. per lb

EGYPTIAN COTTON.

Egyptian cotton futures market was steady. Sakels futures closed 3 to 7 points up and Giza futures were 2 to 6 points higher. Uppers futures closed 2 to 4 points up with spot cotton 2 points down at 7.97d.

ALEXANDRIA MARKET.

The Alexandria cotton futures market was fairly steady with a moderate demand. Sakels futures closed 12 to 5 points up and Ashmouni futures were 2 points up to 6 points down.

JAPANESE SITUATION.

Messrs. M. & B. Stern state:—Exporters, Commission Houses and Jobbers sold following cables from Osaka stating that the Japanese Government will only permit legitimate consumers' demand and will stop all consignments and speculative purchases. The cables also, added that Japanese merchants have so far bought 7 months' requirements. Their Government announcement with regard to exchange on old and new transactions is expected to be published about the 18th instant. Fresh enquiries from Japan are absent pending clarifications of the Exchange restrictions.

Despite the trade recovery in U. K. and U.S.A. the administrations appear averse to speculative advances which may create an artificial boom in commodities and securities to be followed by another slump. The financial policies of the U.K. and U.S.A. seem to be identical with a view to curbing any inflation in currencies in order to maintain their Sterling-Dollar agreement. Momentarily, the local market appears overbought and though we consider the short side is dangerous, we believe, the sagging tendency will continue for the time being.

Messrs. Devkaran Nanjee have received to-day the following cable advices from their Foreign friends:—

New York.—Think that differences between near and distant months will narrow. March liquidation continuing. Some outside buying of new crop months. Domestic consumption growing larger pointing to further reduction of carryover.

Messrs. Chunilal Mehta and Co., Ltd. have received to-day the following cable information from their Foreign Friends:—

Liverpool.—Advance owing to good trade in America. Market has a good undertone. Spinners are fixing the price of cotton bought on "call". "Bulls" disposed to realise. Our opinion is that the market will not go much higher at present.

New York.—Liquidation in March absorbed by spot interests.

New York.—Trade awaiting outcome of Government sales. Domestic consumption large. Exports improving. Technical position good. Expect traders market for time being but long term outlook bullish. Cotton goods market—yarn market—firm and active.

Messrs. Patel Brothers have received the following cable from their Liverpool Agents:—

Looks to us March New York 12.50 temporary top pending result demand for loan cotton. If current demand continues after February first, expect higher range both Liverpool and New York as 12.50 at present only bar to advance.

BOMBAY COTTON

Bombay, Jan. 15.

Following a decline of 5 points in New York cotton futures the local market opened to-day at Rs. 229/4 for Broach A/M. delivery and advanced to Rs. 229/12 on scattered buying. Later on there was increased selling on reports of Osaka Sampin closing at a loss of 12 to 13 yen. It seems that extensive long interest in Osaka is getting liquidated. At the moment all cotton markets are moving within a narrow range pending the influence of sale of loan cotton in the United States of America.

Liverpool market was due to open 2 points down and the market opened 3 points down. The local market was quiet with Broach A/M quoted at Rs. 229. The market closed at 5-30 p.m. as under:—

Linseed & Wheat

Bombay, Jan. 15.

Yesterday Liverpool wheat market was quiet with bearish Argentine shipment forecast and pressure of outside hedging, a depressing facter. It is said that Chicago wheat market position is technically weak and prices eased on forecast of beneficial moisture in the winter wheat Belt and easier Winnipeg advices. At the moment there is less disposition to buy and we think it advisable to secure profits on strong markets with a view to replace on setbacks. The local market was quiet today with a limited turnover. There was some covering in January wheat and linseed was steady.

Long Liquidation In Steels And Textiles

CEMENT SHARES STEADY

Hydro-Electrics Easy

BOMBAY: January 15.

The Stock Exchange settlement passed off satisfactorily with a small difficulty, which was overcome by spirit of co-operation and accommodation.

In comparison to the huge figure which is estimated about rupees fifteen crores, the little difficulty is nothing and the Stock Exchange has one more record of its stability, and the Exchange can be proud of meeting huge responsibilities without any failure.

It may be said that there exists extensive speculative interest in the Bazar far beyond the expectation of an average trade and the actual state will remain unrevealed.

The Auto-Strike in U. S. A. is expected to have a slightly unfavourable effect on the demand of Steel, where it was generally believed that the output will be maintained about 80 per cent. for some time. This is a passing phase, but as long as the strike continues, there will be less demand for steel products.

Thus there was more disposition to liquidate holdings, which resulted in a steady decline in prices.

Tata Steels and Cotton Textiles ruled easy with increased offerings and buyers were reluctant.

Cement shares were more active with a fairly good enquiry and holders of these shares confidently look for higher prices.

Hydro-Electric Section was easy on increased offerings and the undertone was quiet.

To-day's weakness seems natural and it looks like continuing further. Extensive short covering during the beginning of the month has left the market weak and Professional Bulls are not inclined to support the market at the moment. As a matter of fact, they await for a liquidated market to begin their next move.

"On Foot To The Booth"

Congress President's Election Slogan

Stresses Importance Of Staff Work

Jawahar Issues Instructions To Provincial Workers

FYZABAD, Jan 15.

In the course of a statement to the "United Press", Pandit Jawaharlal Nehru draws pointed attention of Congressmen all over India to the rapid approach of polling days and to the insufficiency of staff work which he says is much more important than meetings and demonstrations. "The cry from us everywhere must be: On foot to the polling booths", he adds.

The following is the full text of the statement:—

"Wherever I go I find great enthusiasm for Congress cause. For elections enthusiasm and public meetings and demonstrations are good, but ever more important for any big undertaking is staff work and the careful working out of details. I find that little attention is paid to staff work by our committees. Mostly to concentrate on demonstrations. This is not good enough and first place should be given to staff work.

"Some of the best workers in each province should give up touring and should remain at headquarters and visit places only for purposes of inspection. Polling day arrangements especially should be fixed up carefully. In many provinces polling day approaches. It must be clearly announced that the Congress cannot make arrangements to carry voters by lorry or motor nor do we provide food as others do at the polling booths. The cry from us every where must be 'on foot to the booth." Let this be widely repeated and the rural voters should be encouraged to join parties marching together on foot from their villages to the polls with the national flag and singing national songs."—United Press.

HOW THEY FIGHT ELECTION IN MADRAS

Congress And Justice Party Candidates On Same Platform

NELLORE, Jan. 13.

It is rarely that Justicites and Congressites address the electorate from the same platform, but it happened here when the Hon. Mr. B. Ram Chandra Reddiar, President of the Madras Legislative Council and Justice Party Candidate from the Kavali division of Nellore district, and Mr Gopala Reddiar, Congress nominee from the same constituency addressed the voters at a public meeting held here on the merits of their respective parties.

It looked as though the lion and the lamb were discussing their strength as, after all Mr. Ram Chandra Reddiar had a very poor case from the point of view of service to the nation.

The Hon. Mr. Reddiar said that, in every country the seat allotted on the Legislature to the constituency, represented by the President of the Legislative Council was left uncontested, but in India condition was different and the President of the Council was opposed in his constituency.

He then described to the electorate the "achievements" of the Justice Party.

Mr. Gopala Reddiar was heard with rapt attention as he explained to the gathering fundamentals of Congress programme.

Referring to the so-called convention of the President of the Council being returned uncontested Mr. Gopala Reddiar said that when Swaraj was established that convention might be introduced.—United Press.

The gang then made off.

Police officers have arrived at the spot and investigations are proceeding.

ANTI-CONGRESS CANVASSING

Frontier Congress Leader Makes Serious Allegation

PESHAWAR, Jan. 13.

Addressing an election meeting at Peshawar, Maulana Ghan Mir Hilali, well-known Journalist and Congress leader, alleged that, certain policemen were touring rural areas asking the public not to vote for Congress candidates, though ostensibly they went about investigating cases. This allegation elicited cries of "Shame, Shame" from the audience.—United Press.

"VOTE SOLIDLY FOR CONGRESS CANDIDATES"

Bajaj At Wardha Election Campaign

WARDHA, (By Mail)

A public meeting was held today, under the presidentship of Seth Jamnalal Bajaj, in the Town Hall. Mr. Karandikar, pleader, Secretary, Taluq Congress Committee, Wardha, briefly explained the Congress message and dwelt upon the pros and cons of the Council Entry by the Congress, for the Independence struggle. He appealed to the voters to vote solidly for the Congress candidates, Messrs. Pukhraj, Kedar, (advocates), Khushalchandji and Vishvanath Mahar, as they were the soldiers of the Congress which was out to wreck the Constitution, and was including the peasants and workers in its fold. Mr. Chudiwale, President, T. C. Committee and Mr. Babasaheb Deshmukh, Vice-President, Provincial Congress Committee, also pressed upon the audience the necessity of supportnig Congress candidates.

A FIGHTING INSTITUTION.

Seth Jamnalal spoke at great length and said: "To-day we are launching the election campaign. Congress has set up nearly one thousand candidates to fight the provincial elections. There may be many who are disappointed because they were not selected as candidates. But there is splendid discipline in Congress Camp in spite of this. The Congress is a fighting institution, in opposition to the Government, for winning Swaraj and claims to be the only representative to-day in this country. If you are a Congress man, it is your duty to support the Congress nominees, and see that they are elected by overwhelming majority, from which the Government will know what influence Congress wields. If a candidate fails in a particular constituency it is no discredit to him but to us all, either because we did not work properly, or we did not recognise the supreme importance of the premier body. No doubt that I respect personalities but when a fix comes between them and the Congress I bow to the Congress. The Congress is not now engaged in Satyagraha. It does not expect any sacrifice from you but it claims your vote which is to be given by ballot. Do not yield to pressures, when the country demands your duty by voting for the Congress candidates. We want a majority in the Councils to wreck the reforms.

ALL NOT GENERALS.

So we want all soldiers, not all leaders. All Congress candidates are not generals. But only few people are needed to lead, and the rest should follow by raising their hands in the Council battles. Do not consider the merits or demerits of the candidates, but bear in mind that he is a Congress nominee—a soldier bound to obey Congress mandates. All persons of sterling merit and sacrifice should not be sent to the councils which cannot bring Swaraj to me. I am never a believer in this. But the fight for Swaraj is to be continued from within and without, and so we want real workers for constructive work outside the councils. Then he referred to some misleading reports in "Hitavada" and rumours circulated about him and his shop. A particular candidate may be a friend or a foe of mine. If a friend opposes a Congress candidate I must vote and work against him. Even if a foe of mine stands on Congress ticket, I will work for him as he represents the premier body, i.e., the Congress.

HAVE BOLDNESS.

You should go to the poll and cast your vote for the Congress candidate even if you are not approached by him or his workers or given a lift. You should have the boldness to tell the rival candidate that I would vote for the Congress candidate. Some may not do so, for fear or loss of service or incurring displeasure. But, with all that, you should vote for the Congress candidates solidly. Myself and my shop will work solidly for the Congress so long as I am a Congressman. Do not deceive yourself by trying to please opposing candidates. Be frank and upright and vote for the Congress who is fighting the battle for Independence."

Tragic Accident Occurs In Hyderabad

Heavy Casualties In Train-Buss Smash

HYDERABAD (Deccan): January 15.

Nine persons were killed on the spot and eleven injured, three of whom died subsequently as the result of a serious collision which occurred between a private bus and a passenger train from Dronachallam to Secunderabad.

The accident occurred shortly before 5 p.m. yesterday between Shadnagar and Timmapur Stations.

It appears that the bus, which was crowded, was returning from a fair and was on a level-crossing when the accident occurred.

Mr. Gurr, Deputy Loco Superintendent, N. S. Railway, who was in the train, rendered prompt assistance and, with considerable difficulty, was able to get all the injured persons into the train and take them to Secunderabad, where they were attended to by the Chief Medical Officer at the Railway Hospital.

An enquiry will be held to-day at the scene of the accident at which Mr. Hollins, Director-General of Police and Major Slaughter, Agent of the N. S. Railway will be present.—A. P.

'BURQA' PARTIES AND 'PURDAH' MEETINGS

When Women Take Field In Elections

LAHORE, Jan. 13.

An interesting feature of the election campaign, particularly in Lahore, is the very keen contest that is going on for the women's constituencies, three out of four of which are in Lahore itself. Canvassing parties in burqas and "Purdah" meetings have been a prominent feature of the election activities. Some of these meetings have been as acrimonious as the worst election meetings of "mere men" and leaflets and slogans frequently appear in the City, which do not always bespeak of the gentleness of the fair sex and there are virulent attacks in the vernacular press by or on behalf of women candidates against their rivals.

Shrimati Shanno Devi (Nationalist) and Shrimati Parbati Devi (Congress) are waging a tough battle for the Hindu Women's seat in Lahore and daily meetings in support of the one or the other have been a feature of the civic life of the city these days.

There is a triangular fight for the outer Lahore Muslim women's constituency between Begum Shah Nawaz, a member of the Round Table Conference and a Unionist candidate, Ghulam Junnat, widow of Abdul Satar an Ahrar candidate and Karam-un-Nissa, wife of Mr. M. A. Ghani M.L.C., an independent candidate.—A. P.

SIR Md. YAKUB WELCOMES BENGAL'S LEAD

BOMBAY, Tuesday.

Sir Mohamed Yakub in a statement to the press says that the Maharajadhiraj Burdwan and Sir A. H. Ghuznavi are to be congratulated on the success of their efforts to bring about communal settlement in Bengal. There can be no doubt that communal settlement is the key to the problem of India and it can be solved only by sincere workers taking it up in a right earnest way and not by ignoring it and minimising its importance. Had it not for the sad and untimely death of Mr. C. R. Das, Bengal would already have taken the honour of being the first united province in India and pioneer of communal settlement in the country. So far all efforts have failed mostly because attempts were made to find out one solution for the whole country which seems to be an impossibility. Let us not confuse the issue by putting forward foreign bogus proposals such as holding Constituent Assembly, for which India is not at all prepared. Let us come to brass tacks and adopt more practical and sound methods.—A. P.
